State Board Previous Year Practice 2020 (2020)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for UDP in Computer Networks? (variation 73)

2. What is the most accurate beginner-level explanation of TCP? (variation 102)

3. When working with Computer Networks, why would a developer use routing? (variation 106)

4. What is the most accurate beginner-level explanation of TCP?

5. A student says 'DNS' is not relevant to real projects. What is the best correction?

6. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

7. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

8. Which statement best describes IP addresses in Computer Networks? (variation 100)

9. Which option is a correct use case for latency in Computer Networks? (variation 98)

10. Which statement best describes IP addresses in Computer Networks? (variation 90)

11. Which option is a correct use case for latency in Computer Networks?

12. A student says 'ports' is not relevant to real projects. What is the best correction?

13. When working with Computer Networks, why would a developer use subnets? (variation 351)

14. When working with Computer Networks, why would a developer use routing? (variation 96)

15. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

16. Which statement best describes IP addresses in Computer Networks? (variation 350)

17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

18. Which statement best describes HTTP in Computer Networks? (variation 85)

19. What is the most accurate beginner-level explanation of switches? (variation 97)

20. When working with Computer Networks, why would a developer use subnets?

21. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

22. Which option is a correct use case for UDP in Computer Networks? (variation 103)

23. What is the most accurate beginner-level explanation of switches? (variation 107)

24. When working with Computer Networks, why would a developer use routing?

25. What is the most accurate beginner-level explanation of switches? (variation 357)

26. Which option is a correct use case for UDP in Computer Networks? (variation 93)

27. Which option is a correct use case for UDP in Computer Networks? (variation 353)

28. What is the most accurate beginner-level explanation of switches? (variation 77)

29. What is the most accurate beginner-level explanation of switches? (variation 87)

30. When working with Computer Networks, why would a developer use subnets? (variation 81)

31. When working with Computer Networks, why would a developer use routing? (variation 86)

32. When working with Computer Networks, why would a developer use subnets? (variation 71)

33. Which statement best describes HTTP in Computer Networks?

34. What is the most accurate beginner-level explanation of switches?

35. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

36. Which option is a correct use case for UDP in Computer Networks?

37. When working with Computer Networks, why would a developer use subnets? (variation 101)

38. Which option is a correct use case for latency in Computer Networks? (variation 358)

39. Which option is a correct use case for latency in Computer Networks? (variation 88)

40. Which statement best describes IP addresses in Computer Networks? (variation 70)

41. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

42. What is the most accurate beginner-level explanation of TCP? (variation 92)

43. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

44. What is the most accurate beginner-level explanation of TCP? (variation 72)

45. When working with Computer Networks, why would a developer use routing? (variation 356)

46. Which option is a correct use case for UDP in Computer Networks? (variation 83)

47. Which statement best describes HTTP in Computer Networks? (variation 95)

48. Which statement best describes HTTP in Computer Networks? (variation 75)

49. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

50. What is the most accurate beginner-level explanation of TCP? (variation 82)

51. Which option is a correct use case for latency in Computer Networks? (variation 78)

52. What is the most accurate beginner-level explanation of TCP? (variation 352)

53. Which statement best describes IP addresses in Computer Networks?

54. Which option is a correct use case for latency in Computer Networks? (variation 108)

55. Which statement best describes HTTP in Computer Networks? (variation 105)

56. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

57. When working with Computer Networks, why would a developer use subnets? (variation 91)

58. Which statement best describes IP addresses in Computer Networks? (variation 80)

59. When working with Computer Networks, why would a developer use routing? (variation 76)

60. Which statement best describes HTTP in Computer Networks? (variation 355)
