# CBSE Previous Year Practice 2021 (2021)

Subject: General | Topic: Operating Systems

1. Which statement best describes file systems in Operating Systems?

2. What is the most accurate beginner-level explanation of deadlocks? (variation 97)

3. What is the most accurate beginner-level explanation of deadlocks? (variation 87)

4. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)

5. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)

6. What is the most accurate beginner-level explanation of context switching? (variation 102)

7. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)

8. Which option is a correct use case for scheduling in Operating Systems? (variation 108)

9. What is the most accurate beginner-level explanation of context switching? (variation 82)

10. Which statement best describes file systems in Operating Systems? (variation 85)

11. When working with Operating Systems, why would a developer use threads?

12. Which statement best describes processes in Operating Systems? (variation 100)

13. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)

14. When working with Operating Systems, why would a developer use threads? (variation 91)

15. Which option is a correct use case for scheduling in Operating Systems?

16. Which option is a correct use case for scheduling in Operating Systems? (variation 98)

17. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)

18. Which statement best describes processes in Operating Systems? (variation 70)

19. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)

20. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)

21. A student says 'paging' is not relevant to real projects. What is the best correction?

22. What is the most accurate beginner-level explanation of deadlocks? (variation 107)

23. What is the most accurate beginner-level explanation of deadlocks?

24. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)

25. When working with Operating Systems, why would a developer use system calls?

26. When working with Operating Systems, why would a developer use threads? (variation 351)

27. Which statement best describes file systems in Operating Systems? (variation 355)

28. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)

29. What is the most accurate beginner-level explanation of deadlocks? (variation 357)

30. When working with Operating Systems, why would a developer use system calls? (variation 356)

31. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)

32. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)

33. Which statement best describes processes in Operating Systems? (variation 350)

34. When working with Operating Systems, why would a developer use system calls? (variation 76)

35. When working with Operating Systems, why would a developer use threads? (variation 71)

36. Which statement best describes file systems in Operating Systems? (variation 95)

37. When working with Operating Systems, why would a developer use threads? (variation 101)

38. Which statement best describes file systems in Operating Systems? (variation 105)

39. Which option is a correct use case for scheduling in Operating Systems? (variation 78)

40. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)

41. What is the most accurate beginner-level explanation of context switching? (variation 72)

42. What is the most accurate beginner-level explanation of deadlocks? (variation 77)

43. Which statement best describes processes in Operating Systems? (variation 80)

44. Which statement best describes file systems in Operating Systems? (variation 75)

45. Which option is a correct use case for scheduling in Operating Systems? (variation 88)

46. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)

47. Which statement best describes processes in Operating Systems?

48. What is the most accurate beginner-level explanation of context switching? (variation 92)

49. What is the most accurate beginner-level explanation of context switching? (variation 352)

50. Which option is a correct use case for scheduling in Operating Systems? (variation 358)

51. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)

52. What is the most accurate beginner-level explanation of context switching?

53. Which statement best describes processes in Operating Systems? (variation 90)

54. A student says 'mutexes' is not relevant to real projects. What is the best correction?

55. When working with Operating Systems, why would a developer use system calls? (variation 106)

56. When working with Operating Systems, why would a developer use system calls? (variation 96)

57. Which option is a correct use case for virtual memory in Operating Systems?

58. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)

59. When working with Operating Systems, why would a developer use threads? (variation 81)

60. When working with Operating Systems, why would a developer use system calls? (variation 86)
