IIT-JEE Previous Year Practice 2017 (2017)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for UDP in Computer Networks? (variation 353)

2. What is the most accurate beginner-level explanation of switches?

3. What is the most accurate beginner-level explanation of switches? (variation 87)

4. When working with Computer Networks, why would a developer use subnets? (variation 101)

5. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

6. Which option is a correct use case for UDP in Computer Networks? (variation 83)

7. What is the most accurate beginner-level explanation of TCP? (variation 72)

8. Which statement best describes IP addresses in Computer Networks? (variation 350)

9. Which statement best describes HTTP in Computer Networks? (variation 95)

10. Which statement best describes HTTP in Computer Networks? (variation 105)

11. What is the most accurate beginner-level explanation of switches? (variation 107)

12. When working with Computer Networks, why would a developer use routing? (variation 76)

13. When working with Computer Networks, why would a developer use subnets? (variation 71)

14. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

15. Which statement best describes HTTP in Computer Networks? (variation 85)

16. What is the most accurate beginner-level explanation of TCP? (variation 102)

17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

18. What is the most accurate beginner-level explanation of switches? (variation 77)

19. When working with Computer Networks, why would a developer use routing? (variation 106)

20. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

21. Which option is a correct use case for latency in Computer Networks? (variation 98)

22. Which statement best describes IP addresses in Computer Networks? (variation 90)

23. Which option is a correct use case for UDP in Computer Networks? (variation 103)

24. When working with Computer Networks, why would a developer use subnets?

25. Which option is a correct use case for UDP in Computer Networks? (variation 73)

26. Which statement best describes IP addresses in Computer Networks?

27. When working with Computer Networks, why would a developer use subnets? (variation 81)

28. When working with Computer Networks, why would a developer use routing? (variation 356)

29. When working with Computer Networks, why would a developer use routing?

30. Which statement best describes IP addresses in Computer Networks? (variation 70)

31. Which option is a correct use case for latency in Computer Networks? (variation 358)

32. When working with Computer Networks, why would a developer use routing? (variation 96)

33. A student says 'ports' is not relevant to real projects. What is the best correction?

34. When working with Computer Networks, why would a developer use subnets? (variation 91)

35. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

36. What is the most accurate beginner-level explanation of TCP? (variation 82)

37. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

38. What is the most accurate beginner-level explanation of switches? (variation 97)

39. When working with Computer Networks, why would a developer use routing? (variation 86)

40. Which option is a correct use case for UDP in Computer Networks? (variation 93)

41. A student says 'DNS' is not relevant to real projects. What is the best correction?

42. When working with Computer Networks, why would a developer use subnets? (variation 351)

43. Which statement best describes IP addresses in Computer Networks? (variation 100)

44. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

45. What is the most accurate beginner-level explanation of TCP?

46. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

47. Which option is a correct use case for latency in Computer Networks? (variation 108)

48. Which statement best describes HTTP in Computer Networks? (variation 355)

49. Which option is a correct use case for latency in Computer Networks? (variation 78)

50. Which statement best describes HTTP in Computer Networks?

51. Which option is a correct use case for latency in Computer Networks?

52. Which option is a correct use case for latency in Computer Networks? (variation 88)

53. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

55. What is the most accurate beginner-level explanation of TCP? (variation 92)

56. Which statement best describes IP addresses in Computer Networks? (variation 80)

57. Which statement best describes HTTP in Computer Networks? (variation 75)

58. What is the most accurate beginner-level explanation of switches? (variation 357)

59. Which option is a correct use case for UDP in Computer Networks?

60. What is the most accurate beginner-level explanation of TCP? (variation 352)
