State Board Previous Year Practice 2022 (2022)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for latency in Computer Networks? (variation 108)

2. Which option is a correct use case for UDP in Computer Networks? (variation 93)

3. A student says 'DNS' is not relevant to real projects. What is the best correction?

4. What is the most accurate beginner-level explanation of TCP? (variation 352)

5. Which statement best describes IP addresses in Computer Networks? (variation 90)

6. Which statement best describes HTTP in Computer Networks? (variation 95)

7. Which option is a correct use case for UDP in Computer Networks? (variation 83)

8. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

9. When working with Computer Networks, why would a developer use routing? (variation 106)

10. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

11. When working with Computer Networks, why would a developer use routing?

12. When working with Computer Networks, why would a developer use subnets? (variation 71)

13. What is the most accurate beginner-level explanation of switches? (variation 357)

14. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

15. What is the most accurate beginner-level explanation of TCP? (variation 72)

16. Which statement best describes IP addresses in Computer Networks? (variation 350)

17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

18. When working with Computer Networks, why would a developer use routing? (variation 356)

19. A student says 'ports' is not relevant to real projects. What is the best correction?

20. Which option is a correct use case for latency in Computer Networks? (variation 358)

21. Which statement best describes HTTP in Computer Networks? (variation 355)

22. When working with Computer Networks, why would a developer use subnets?

23. What is the most accurate beginner-level explanation of TCP? (variation 102)

24. Which option is a correct use case for UDP in Computer Networks? (variation 353)

25. Which statement best describes HTTP in Computer Networks?

26. Which statement best describes IP addresses in Computer Networks? (variation 80)

27. Which option is a correct use case for UDP in Computer Networks? (variation 73)

28. What is the most accurate beginner-level explanation of switches? (variation 97)

29. Which statement best describes HTTP in Computer Networks? (variation 75)

30. When working with Computer Networks, why would a developer use routing? (variation 86)

31. Which option is a correct use case for UDP in Computer Networks? (variation 103)

32. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

33. When working with Computer Networks, why would a developer use routing? (variation 96)

34. Which statement best describes HTTP in Computer Networks? (variation 85)

35. Which statement best describes IP addresses in Computer Networks? (variation 70)

36. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

37. When working with Computer Networks, why would a developer use subnets? (variation 91)

38. What is the most accurate beginner-level explanation of switches? (variation 87)

39. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

40. When working with Computer Networks, why would a developer use subnets? (variation 81)

41. When working with Computer Networks, why would a developer use subnets? (variation 101)

42. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

43. Which option is a correct use case for latency in Computer Networks? (variation 88)

44. What is the most accurate beginner-level explanation of TCP?

45. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

46. What is the most accurate beginner-level explanation of switches? (variation 107)

47. When working with Computer Networks, why would a developer use subnets? (variation 351)

48. Which option is a correct use case for latency in Computer Networks?

49. Which statement best describes HTTP in Computer Networks? (variation 105)

50. Which statement best describes IP addresses in Computer Networks? (variation 100)

51. Which option is a correct use case for UDP in Computer Networks?

52. What is the most accurate beginner-level explanation of TCP? (variation 82)

53. Which statement best describes IP addresses in Computer Networks?

54. What is the most accurate beginner-level explanation of TCP? (variation 92)

55. Which option is a correct use case for latency in Computer Networks? (variation 78)

56. What is the most accurate beginner-level explanation of switches? (variation 77)

57. Which option is a correct use case for latency in Computer Networks? (variation 98)

58. What is the most accurate beginner-level explanation of switches?

59. When working with Computer Networks, why would a developer use routing? (variation 76)

60. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
