UPSC Previous Year Practice 2017 (2017)

Subject: General | Topic: Operating Systems

1. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)

2. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)

3. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)

4. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)

5. When working with Operating Systems, why would a developer use system calls? (variation 96)

6. Which statement best describes file systems in Operating Systems? (variation 95)

7. Which statement best describes processes in Operating Systems? (variation 350)

8. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)

9. What is the most accurate beginner-level explanation of deadlocks? (variation 97)

10. What is the most accurate beginner-level explanation of deadlocks? (variation 87)

11. Which option is a correct use case for virtual memory in Operating Systems?

12. What is the most accurate beginner-level explanation of context switching? (variation 82)

13. What is the most accurate beginner-level explanation of context switching? (variation 102)

14. When working with Operating Systems, why would a developer use threads? (variation 351)

15. When working with Operating Systems, why would a developer use system calls? (variation 106)

16. Which option is a correct use case for scheduling in Operating Systems? (variation 88)

17. Which option is a correct use case for scheduling in Operating Systems? (variation 358)

18. When working with Operating Systems, why would a developer use threads? (variation 81)

19. What is the most accurate beginner-level explanation of deadlocks? (variation 107)

20. Which statement best describes processes in Operating Systems? (variation 70)

21. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)

22. Which option is a correct use case for scheduling in Operating Systems? (variation 108)

23. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)

24. When working with Operating Systems, why would a developer use system calls? (variation 86)

25. What is the most accurate beginner-level explanation of context switching? (variation 72)

26. When working with Operating Systems, why would a developer use threads? (variation 91)

27. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)

28. Which statement best describes file systems in Operating Systems?

29. Which statement best describes file systems in Operating Systems? (variation 85)

30. What is the most accurate beginner-level explanation of deadlocks? (variation 357)

31. Which statement best describes file systems in Operating Systems? (variation 105)

32. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)

33. A student says 'mutexes' is not relevant to real projects. What is the best correction?

34. What is the most accurate beginner-level explanation of deadlocks?

35. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)

36. When working with Operating Systems, why would a developer use system calls?

37. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)

38. Which statement best describes processes in Operating Systems?

39. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)

40. Which option is a correct use case for scheduling in Operating Systems?

41. Which option is a correct use case for scheduling in Operating Systems? (variation 98)

42. Which statement best describes file systems in Operating Systems? (variation 355)

43. What is the most accurate beginner-level explanation of deadlocks? (variation 77)

44. When working with Operating Systems, why would a developer use system calls? (variation 76)

45. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)

46. When working with Operating Systems, why would a developer use threads? (variation 101)

47. A student says 'paging' is not relevant to real projects. What is the best correction?

48. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)

49. When working with Operating Systems, why would a developer use threads?

50. Which statement best describes file systems in Operating Systems? (variation 75)

51. Which statement best describes processes in Operating Systems? (variation 80)

52. When working with Operating Systems, why would a developer use system calls? (variation 356)

53. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)

54. What is the most accurate beginner-level explanation of context switching? (variation 92)

55. When working with Operating Systems, why would a developer use threads? (variation 71)

56. Which option is a correct use case for scheduling in Operating Systems? (variation 78)

57. What is the most accurate beginner-level explanation of context switching? (variation 352)

58. Which statement best describes processes in Operating Systems? (variation 100)

59. Which statement best describes processes in Operating Systems? (variation 90)

60. What is the most accurate beginner-level explanation of context switching?
