# NEET Previous Year Practice 2021 (2021)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of TCP? (variation 82)

2. Which option is a correct use case for UDP in Computer Networks? (variation 93)

3. What is the most accurate beginner-level explanation of switches? (variation 77)

4. What is the most accurate beginner-level explanation of TCP?

5. Which statement best describes HTTP in Computer Networks? (variation 75)

6. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

7. Which option is a correct use case for latency in Computer Networks?

8. Which option is a correct use case for UDP in Computer Networks?

9. Which statement best describes IP addresses in Computer Networks? (variation 70)

10. When working with Computer Networks, why would a developer use subnets? (variation 81)

11. Which option is a correct use case for latency in Computer Networks? (variation 98)

12. When working with Computer Networks, why would a developer use routing? (variation 76)

13. Which statement best describes IP addresses in Computer Networks? (variation 100)

14. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

15. Which option is a correct use case for latency in Computer Networks? (variation 108)

16. Which statement best describes IP addresses in Computer Networks? (variation 80)

17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

18. What is the most accurate beginner-level explanation of switches? (variation 357)

19. Which option is a correct use case for latency in Computer Networks? (variation 78)

20. What is the most accurate beginner-level explanation of TCP? (variation 352)

21. Which option is a correct use case for UDP in Computer Networks? (variation 83)

22. Which statement best describes HTTP in Computer Networks?

23. When working with Computer Networks, why would a developer use routing? (variation 86)

24. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

25. Which option is a correct use case for UDP in Computer Networks? (variation 103)

26. When working with Computer Networks, why would a developer use subnets? (variation 71)

27. A student says 'ports' is not relevant to real projects. What is the best correction?

28. What is the most accurate beginner-level explanation of TCP? (variation 72)

29. Which statement best describes HTTP in Computer Networks? (variation 355)

30. What is the most accurate beginner-level explanation of TCP? (variation 92)

31. What is the most accurate beginner-level explanation of TCP? (variation 102)

32. What is the most accurate beginner-level explanation of switches?

33. Which option is a correct use case for UDP in Computer Networks? (variation 73)

34. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

35. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

36. Which statement best describes HTTP in Computer Networks? (variation 85)

37. When working with Computer Networks, why would a developer use subnets? (variation 351)

38. Which statement best describes IP addresses in Computer Networks?

39. When working with Computer Networks, why would a developer use subnets?

40. Which option is a correct use case for UDP in Computer Networks? (variation 353)

41. When working with Computer Networks, why would a developer use routing? (variation 106)

42. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

43. What is the most accurate beginner-level explanation of switches? (variation 97)

44. When working with Computer Networks, why would a developer use routing?

45. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

46. When working with Computer Networks, why would a developer use subnets? (variation 91)

47. When working with Computer Networks, why would a developer use routing? (variation 96)

48. Which option is a correct use case for latency in Computer Networks? (variation 358)

49. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

50. Which statement best describes IP addresses in Computer Networks? (variation 90)

51. What is the most accurate beginner-level explanation of switches? (variation 107)

52. When working with Computer Networks, why would a developer use subnets? (variation 101)

53. Which statement best describes HTTP in Computer Networks? (variation 105)

54. Which statement best describes IP addresses in Computer Networks? (variation 350)

55. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

56. A student says 'DNS' is not relevant to real projects. What is the best correction?

57. Which statement best describes HTTP in Computer Networks? (variation 95)

58. Which option is a correct use case for latency in Computer Networks? (variation 88)

59. What is the most accurate beginner-level explanation of switches? (variation 87)

60. When working with Computer Networks, why would a developer use routing? (variation 356)
