NEET Previous Year Practice 2023 (2023)

Subject: General | Topic: Computer Networks

1. Which statement best describes IP addresses in Computer Networks? (variation 90)

2. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

3. When working with Computer Networks, why would a developer use routing? (variation 96)

4. What is the most accurate beginner-level explanation of switches? (variation 97)

5. When working with Computer Networks, why would a developer use routing? (variation 356)

6. What is the most accurate beginner-level explanation of TCP?

7. Which statement best describes HTTP in Computer Networks?

8. Which option is a correct use case for latency in Computer Networks? (variation 88)

9. Which option is a correct use case for UDP in Computer Networks? (variation 93)

10. When working with Computer Networks, why would a developer use subnets? (variation 91)

11. A student says 'DNS' is not relevant to real projects. What is the best correction?

12. Which statement best describes IP addresses in Computer Networks? (variation 80)

13. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

14. Which statement best describes IP addresses in Computer Networks? (variation 70)

15. Which option is a correct use case for UDP in Computer Networks? (variation 83)

16. Which statement best describes HTTP in Computer Networks? (variation 75)

17. When working with Computer Networks, why would a developer use subnets? (variation 101)

18. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

19. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

20. A student says 'ports' is not relevant to real projects. What is the best correction?

21. Which option is a correct use case for latency in Computer Networks? (variation 78)

22. Which option is a correct use case for latency in Computer Networks?

23. Which option is a correct use case for latency in Computer Networks? (variation 358)

24. When working with Computer Networks, why would a developer use subnets? (variation 351)

25. Which statement best describes HTTP in Computer Networks? (variation 95)

26. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

27. When working with Computer Networks, why would a developer use routing? (variation 86)

28. When working with Computer Networks, why would a developer use subnets?

29. When working with Computer Networks, why would a developer use subnets? (variation 81)

30. What is the most accurate beginner-level explanation of TCP? (variation 102)

31. When working with Computer Networks, why would a developer use subnets? (variation 71)

32. Which option is a correct use case for latency in Computer Networks? (variation 98)

33. When working with Computer Networks, why would a developer use routing? (variation 76)

34. What is the most accurate beginner-level explanation of switches? (variation 107)

35. What is the most accurate beginner-level explanation of TCP? (variation 82)

36. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

37. What is the most accurate beginner-level explanation of switches? (variation 87)

38. Which statement best describes HTTP in Computer Networks? (variation 105)

39. What is the most accurate beginner-level explanation of TCP? (variation 352)

40. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

41. What is the most accurate beginner-level explanation of switches?

42. Which statement best describes HTTP in Computer Networks? (variation 85)

43. What is the most accurate beginner-level explanation of TCP? (variation 72)

44. Which option is a correct use case for UDP in Computer Networks? (variation 103)

45. Which statement best describes IP addresses in Computer Networks? (variation 100)

46. Which option is a correct use case for UDP in Computer Networks?

47. Which option is a correct use case for latency in Computer Networks? (variation 108)

48. What is the most accurate beginner-level explanation of TCP? (variation 92)

49. When working with Computer Networks, why would a developer use routing?

50. Which statement best describes HTTP in Computer Networks? (variation 355)

51. Which option is a correct use case for UDP in Computer Networks? (variation 73)

52. Which option is a correct use case for UDP in Computer Networks? (variation 353)

53. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

55. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

56. When working with Computer Networks, why would a developer use routing? (variation 106)

57. What is the most accurate beginner-level explanation of switches? (variation 77)

58. Which statement best describes IP addresses in Computer Networks? (variation 350)

59. Which statement best describes IP addresses in Computer Networks?

60. What is the most accurate beginner-level explanation of switches? (variation 357)
