ICSE Previous Year Practice 2025 (2025)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for latency in Computer Networks? (variation 108)

2. What is the most accurate beginner-level explanation of switches? (variation 87)

3. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

4. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

5. Which statement best describes IP addresses in Computer Networks?

6. When working with Computer Networks, why would a developer use subnets? (variation 71)

7. Which option is a correct use case for UDP in Computer Networks? (variation 73)

8. What is the most accurate beginner-level explanation of TCP? (variation 92)

9. When working with Computer Networks, why would a developer use routing? (variation 96)

10. What is the most accurate beginner-level explanation of TCP?

11. Which option is a correct use case for UDP in Computer Networks? (variation 103)

12. When working with Computer Networks, why would a developer use routing? (variation 106)

13. Which statement best describes HTTP in Computer Networks?

14. What is the most accurate beginner-level explanation of switches?

15. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

16. When working with Computer Networks, why would a developer use subnets? (variation 91)

17. Which statement best describes IP addresses in Computer Networks? (variation 70)

18. Which option is a correct use case for UDP in Computer Networks?

19. What is the most accurate beginner-level explanation of switches? (variation 97)

20. When working with Computer Networks, why would a developer use subnets? (variation 81)

21. Which option is a correct use case for latency in Computer Networks? (variation 98)

22. A student says 'ports' is not relevant to real projects. What is the best correction?

23. Which option is a correct use case for latency in Computer Networks? (variation 78)

24. Which option is a correct use case for latency in Computer Networks?

25. Which statement best describes IP addresses in Computer Networks? (variation 90)

26. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

27. A student says 'DNS' is not relevant to real projects. What is the best correction?

28. What is the most accurate beginner-level explanation of switches? (variation 107)

29. Which option is a correct use case for UDP in Computer Networks? (variation 83)

30. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

31. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

32. Which statement best describes HTTP in Computer Networks? (variation 355)

33. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

34. Which statement best describes HTTP in Computer Networks? (variation 95)

35. Which statement best describes IP addresses in Computer Networks? (variation 350)

36. Which statement best describes HTTP in Computer Networks? (variation 85)

37. Which statement best describes IP addresses in Computer Networks? (variation 80)

38. Which option is a correct use case for latency in Computer Networks? (variation 358)

39. Which statement best describes IP addresses in Computer Networks? (variation 100)

40. What is the most accurate beginner-level explanation of TCP? (variation 102)

41. Which option is a correct use case for UDP in Computer Networks? (variation 353)

42. When working with Computer Networks, why would a developer use routing? (variation 76)

43. When working with Computer Networks, why would a developer use subnets? (variation 351)

44. When working with Computer Networks, why would a developer use subnets? (variation 101)

45. Which statement best describes HTTP in Computer Networks? (variation 105)

46. Which option is a correct use case for latency in Computer Networks? (variation 88)

47. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

48. When working with Computer Networks, why would a developer use subnets?

49. When working with Computer Networks, why would a developer use routing? (variation 86)

50. What is the most accurate beginner-level explanation of TCP? (variation 352)

51. What is the most accurate beginner-level explanation of switches? (variation 357)

52. Which statement best describes HTTP in Computer Networks? (variation 75)

53. When working with Computer Networks, why would a developer use routing? (variation 356)

54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

55. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

56. Which option is a correct use case for UDP in Computer Networks? (variation 93)

57. What is the most accurate beginner-level explanation of TCP? (variation 82)

58. When working with Computer Networks, why would a developer use routing?

59. What is the most accurate beginner-level explanation of switches? (variation 77)

60. What is the most accurate beginner-level explanation of TCP? (variation 72)
