NEET Previous Year Practice 2026 (2026)

Subject: General | Topic: Computer Networks

1. When working with Computer Networks, why would a developer use routing? (variation 86)

2. Which option is a correct use case for latency in Computer Networks? (variation 98)

3. Which option is a correct use case for UDP in Computer Networks? (variation 83)

4. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

5. What is the most accurate beginner-level explanation of TCP?

6. When working with Computer Networks, why would a developer use routing?

7. What is the most accurate beginner-level explanation of switches? (variation 87)

8. Which statement best describes HTTP in Computer Networks? (variation 95)

9. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

10. Which option is a correct use case for UDP in Computer Networks? (variation 93)

11. Which statement best describes IP addresses in Computer Networks?

12. What is the most accurate beginner-level explanation of switches? (variation 107)

13. When working with Computer Networks, why would a developer use subnets?

14. When working with Computer Networks, why would a developer use routing? (variation 106)

15. What is the most accurate beginner-level explanation of switches? (variation 77)

16. Which statement best describes IP addresses in Computer Networks? (variation 350)

17. What is the most accurate beginner-level explanation of TCP? (variation 102)

18. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

19. When working with Computer Networks, why would a developer use subnets? (variation 81)

20. Which statement best describes IP addresses in Computer Networks? (variation 70)

21. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

22. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

23. A student says 'DNS' is not relevant to real projects. What is the best correction?

24. Which statement best describes HTTP in Computer Networks? (variation 85)

25. When working with Computer Networks, why would a developer use subnets? (variation 91)

26. What is the most accurate beginner-level explanation of switches? (variation 357)

27. A student says 'ports' is not relevant to real projects. What is the best correction?

28. Which statement best describes HTTP in Computer Networks? (variation 355)

29. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

30. Which statement best describes HTTP in Computer Networks? (variation 75)

31. When working with Computer Networks, why would a developer use routing? (variation 356)

32. Which option is a correct use case for UDP in Computer Networks? (variation 73)

33. What is the most accurate beginner-level explanation of TCP? (variation 72)

34. Which option is a correct use case for latency in Computer Networks?

35. Which statement best describes IP addresses in Computer Networks? (variation 90)

36. Which statement best describes IP addresses in Computer Networks? (variation 80)

37. Which option is a correct use case for latency in Computer Networks? (variation 108)

38. Which statement best describes HTTP in Computer Networks? (variation 105)

39. Which statement best describes IP addresses in Computer Networks? (variation 100)

40. Which option is a correct use case for UDP in Computer Networks? (variation 103)

41. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

42. Which option is a correct use case for latency in Computer Networks? (variation 78)

43. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

44. Which option is a correct use case for latency in Computer Networks? (variation 88)

45. What is the most accurate beginner-level explanation of TCP? (variation 352)

46. When working with Computer Networks, why would a developer use subnets? (variation 71)

47. When working with Computer Networks, why would a developer use subnets? (variation 101)

48. Which option is a correct use case for latency in Computer Networks? (variation 358)

49. Which option is a correct use case for UDP in Computer Networks?

50. Which option is a correct use case for UDP in Computer Networks? (variation 353)

51. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

52. When working with Computer Networks, why would a developer use subnets? (variation 351)

53. What is the most accurate beginner-level explanation of switches?

54. What is the most accurate beginner-level explanation of TCP? (variation 92)

55. When working with Computer Networks, why would a developer use routing? (variation 76)

56. What is the most accurate beginner-level explanation of switches? (variation 97)

57. What is the most accurate beginner-level explanation of TCP? (variation 82)

58. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

59. Which statement best describes HTTP in Computer Networks?

60. When working with Computer Networks, why would a developer use routing? (variation 96)
