IIT-JEE Previous Year Practice 2026 (2026)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of switches? (variation 87)

2. Which statement best describes IP addresses in Computer Networks? (variation 100)

3. Which option is a correct use case for UDP in Computer Networks? (variation 103)

4. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

5. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

6. What is the most accurate beginner-level explanation of TCP? (variation 92)

7. Which statement best describes IP addresses in Computer Networks? (variation 70)

8. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

9. Which option is a correct use case for UDP in Computer Networks?

10. Which statement best describes IP addresses in Computer Networks?

11. When working with Computer Networks, why would a developer use routing? (variation 76)

12. A student says 'DNS' is not relevant to real projects. What is the best correction?

13. What is the most accurate beginner-level explanation of switches? (variation 97)

14. Which statement best describes HTTP in Computer Networks? (variation 355)

15. When working with Computer Networks, why would a developer use subnets? (variation 351)

16. Which statement best describes HTTP in Computer Networks? (variation 105)

17. What is the most accurate beginner-level explanation of TCP? (variation 72)

18. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

19. When working with Computer Networks, why would a developer use subnets? (variation 71)

20. Which option is a correct use case for UDP in Computer Networks? (variation 93)

21. When working with Computer Networks, why would a developer use subnets? (variation 91)

22. A student says 'ports' is not relevant to real projects. What is the best correction?

23. What is the most accurate beginner-level explanation of switches?

24. What is the most accurate beginner-level explanation of switches? (variation 357)

25. Which statement best describes HTTP in Computer Networks? (variation 95)

26. Which option is a correct use case for latency in Computer Networks? (variation 98)

27. What is the most accurate beginner-level explanation of TCP? (variation 102)

28. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

29. When working with Computer Networks, why would a developer use routing? (variation 86)

30. Which option is a correct use case for latency in Computer Networks? (variation 88)

31. Which statement best describes HTTP in Computer Networks? (variation 85)

32. Which statement best describes HTTP in Computer Networks?

33. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

34. When working with Computer Networks, why would a developer use routing? (variation 106)

35. When working with Computer Networks, why would a developer use subnets?

36. What is the most accurate beginner-level explanation of switches? (variation 77)

37. What is the most accurate beginner-level explanation of TCP? (variation 82)

38. Which statement best describes IP addresses in Computer Networks? (variation 90)

39. Which option is a correct use case for latency in Computer Networks?

40. Which option is a correct use case for latency in Computer Networks? (variation 108)

41. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

42. What is the most accurate beginner-level explanation of switches? (variation 107)

43. What is the most accurate beginner-level explanation of TCP? (variation 352)

44. When working with Computer Networks, why would a developer use routing? (variation 356)

45. Which statement best describes IP addresses in Computer Networks? (variation 80)

46. When working with Computer Networks, why would a developer use subnets? (variation 101)

47. When working with Computer Networks, why would a developer use routing?

48. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

49. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

50. Which statement best describes HTTP in Computer Networks? (variation 75)

51. When working with Computer Networks, why would a developer use subnets? (variation 81)

52. What is the most accurate beginner-level explanation of TCP?

53. Which statement best describes IP addresses in Computer Networks? (variation 350)

54. Which option is a correct use case for latency in Computer Networks? (variation 358)

55. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

56. Which option is a correct use case for latency in Computer Networks? (variation 78)

57. Which option is a correct use case for UDP in Computer Networks? (variation 73)

58. Which option is a correct use case for UDP in Computer Networks? (variation 83)

59. Which option is a correct use case for UDP in Computer Networks? (variation 353)

60. When working with Computer Networks, why would a developer use routing? (variation 96)
