ICSE Previous Year Practice 2023 (2023)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for UDP in Computer Networks? (variation 83)

2. When working with Computer Networks, why would a developer use subnets? (variation 101)

3. What is the most accurate beginner-level explanation of switches?

4. When working with Computer Networks, why would a developer use routing? (variation 356)

5. What is the most accurate beginner-level explanation of TCP? (variation 82)

6. Which option is a correct use case for latency in Computer Networks?

7. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

8. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

9. Which option is a correct use case for UDP in Computer Networks? (variation 353)

10. Which option is a correct use case for UDP in Computer Networks? (variation 93)

11. What is the most accurate beginner-level explanation of TCP? (variation 102)

12. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

13. Which statement best describes IP addresses in Computer Networks? (variation 90)

14. What is the most accurate beginner-level explanation of switches? (variation 77)

15. Which statement best describes HTTP in Computer Networks? (variation 355)

16. Which statement best describes IP addresses in Computer Networks? (variation 350)

17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

18. When working with Computer Networks, why would a developer use routing? (variation 96)

19. When working with Computer Networks, why would a developer use routing?

20. Which statement best describes HTTP in Computer Networks?

21. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

22. A student says 'ports' is not relevant to real projects. What is the best correction?

23. Which option is a correct use case for UDP in Computer Networks? (variation 103)

24. What is the most accurate beginner-level explanation of TCP?

25. What is the most accurate beginner-level explanation of TCP? (variation 72)

26. Which option is a correct use case for UDP in Computer Networks?

27. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

28. Which option is a correct use case for latency in Computer Networks? (variation 98)

29. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

30. Which option is a correct use case for UDP in Computer Networks? (variation 73)

31. Which statement best describes HTTP in Computer Networks? (variation 95)

32. Which option is a correct use case for latency in Computer Networks? (variation 88)

33. Which option is a correct use case for latency in Computer Networks? (variation 108)

34. What is the most accurate beginner-level explanation of switches? (variation 87)

35. What is the most accurate beginner-level explanation of switches? (variation 107)

36. When working with Computer Networks, why would a developer use routing? (variation 76)

37. When working with Computer Networks, why would a developer use subnets? (variation 91)

38. When working with Computer Networks, why would a developer use subnets? (variation 81)

39. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

40. When working with Computer Networks, why would a developer use subnets?

41. A student says 'DNS' is not relevant to real projects. What is the best correction?

42. Which statement best describes IP addresses in Computer Networks?

43. What is the most accurate beginner-level explanation of switches? (variation 357)

44. What is the most accurate beginner-level explanation of TCP? (variation 352)

45. When working with Computer Networks, why would a developer use subnets? (variation 351)

46. When working with Computer Networks, why would a developer use subnets? (variation 71)

47. What is the most accurate beginner-level explanation of switches? (variation 97)

48. Which statement best describes IP addresses in Computer Networks? (variation 70)

49. Which option is a correct use case for latency in Computer Networks? (variation 358)

50. When working with Computer Networks, why would a developer use routing? (variation 106)

51. Which statement best describes IP addresses in Computer Networks? (variation 100)

52. Which statement best describes HTTP in Computer Networks? (variation 75)

53. Which statement best describes IP addresses in Computer Networks? (variation 80)

54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

55. Which statement best describes HTTP in Computer Networks? (variation 85)

56. Which statement best describes HTTP in Computer Networks? (variation 105)

57. Which option is a correct use case for latency in Computer Networks? (variation 78)

58. When working with Computer Networks, why would a developer use routing? (variation 86)

59. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

60. What is the most accurate beginner-level explanation of TCP? (variation 92)
