ICSE Previous Year Practice 2022 (2022)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of switches? (variation 97)

2. Which statement best describes HTTP in Computer Networks? (variation 105)

3. Which statement best describes HTTP in Computer Networks? (variation 355)

4. Which option is a correct use case for latency in Computer Networks? (variation 98)

5. When working with Computer Networks, why would a developer use subnets?

6. Which option is a correct use case for UDP in Computer Networks? (variation 353)

7. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

8. Which option is a correct use case for UDP in Computer Networks? (variation 103)

9. Which statement best describes IP addresses in Computer Networks? (variation 90)

10. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

11. When working with Computer Networks, why would a developer use subnets? (variation 71)

12. What is the most accurate beginner-level explanation of TCP? (variation 102)

13. When working with Computer Networks, why would a developer use routing?

14. Which option is a correct use case for latency in Computer Networks? (variation 108)

15. When working with Computer Networks, why would a developer use routing? (variation 76)

16. A student says 'ports' is not relevant to real projects. What is the best correction?

17. What is the most accurate beginner-level explanation of TCP? (variation 352)

18. Which statement best describes IP addresses in Computer Networks? (variation 70)

19. When working with Computer Networks, why would a developer use routing? (variation 356)

20. Which option is a correct use case for UDP in Computer Networks?

21. Which option is a correct use case for latency in Computer Networks? (variation 78)

22. When working with Computer Networks, why would a developer use subnets? (variation 81)

23. When working with Computer Networks, why would a developer use routing? (variation 86)

24. When working with Computer Networks, why would a developer use subnets? (variation 351)

25. Which statement best describes IP addresses in Computer Networks?

26. When working with Computer Networks, why would a developer use subnets? (variation 101)

27. Which option is a correct use case for UDP in Computer Networks? (variation 83)

28. Which option is a correct use case for UDP in Computer Networks? (variation 93)

29. Which statement best describes HTTP in Computer Networks?

30. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

31. Which statement best describes IP addresses in Computer Networks? (variation 100)

32. What is the most accurate beginner-level explanation of switches? (variation 77)

33. Which statement best describes HTTP in Computer Networks? (variation 85)

34. When working with Computer Networks, why would a developer use routing? (variation 106)

35. When working with Computer Networks, why would a developer use subnets? (variation 91)

36. Which statement best describes IP addresses in Computer Networks? (variation 350)

37. Which option is a correct use case for latency in Computer Networks?

38. Which statement best describes IP addresses in Computer Networks? (variation 80)

39. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

40. What is the most accurate beginner-level explanation of switches? (variation 357)

41. A student says 'DNS' is not relevant to real projects. What is the best correction?

42. Which option is a correct use case for UDP in Computer Networks? (variation 73)

43. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

44. What is the most accurate beginner-level explanation of TCP? (variation 82)

45. What is the most accurate beginner-level explanation of switches? (variation 87)

46. What is the most accurate beginner-level explanation of TCP? (variation 72)

47. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

48. Which option is a correct use case for latency in Computer Networks? (variation 88)

49. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

50. What is the most accurate beginner-level explanation of switches?

51. What is the most accurate beginner-level explanation of TCP? (variation 92)

52. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

53. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

55. What is the most accurate beginner-level explanation of switches? (variation 107)

56. Which statement best describes HTTP in Computer Networks? (variation 95)

57. What is the most accurate beginner-level explanation of TCP?

58. Which option is a correct use case for latency in Computer Networks? (variation 358)

59. When working with Computer Networks, why would a developer use routing? (variation 96)

60. Which statement best describes HTTP in Computer Networks? (variation 75)
