

CBSE Previous Year Practice 2021 (2021)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use virtual environments? (variation 356)
2. What is the most accurate beginner-level explanation of iterators?
3. Which option is a correct use case for classes in Python Programming? (variation 83)
4. When working with Python Programming, why would a developer use dictionaries? (variation 71)
5. What is the most accurate beginner-level explanation of iterators? (variation 77)
6. Which statement best describes list comprehensions in Python Programming? (variation 70)
7. What is the most accurate beginner-level explanation of iterators? (variation 107)
8. Which statement best describes list comprehensions in Python Programming? (variation 80)
9. Which statement best describes list comprehensions in Python Programming?
10. Which statement best describes modules in Python Programming? (variation 75)
11. What is the most accurate beginner-level explanation of iterators? (variation 87)
12. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
13. Which option is a correct use case for classes in Python Programming? (variation 103)
14. Which statement best describes list comprehensions in Python Programming? (variation 90)
15. A student says 'exceptions' is not relevant to real projects. What is the best correction?
16. Which statement best describes modules in Python Programming? (variation 355)
17. Which option is a correct use case for decorators in Python Programming?

18. Which option is a correct use case for classes in Python Programming? (variation 73)
19. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
20. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
21. Which statement best describes list comprehensions in Python Programming? (variation 350)
22. Which option is a correct use case for decorators in Python Programming? (variation 108)
23. Which option is a correct use case for decorators in Python Programming? (variation 78)
24. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
25. When working with Python Programming, why would a developer use dictionaries? (variation 81)
26. What is the most accurate beginner-level explanation of iterators? (variation 97)
27. When working with Python Programming, why would a developer use virtual environments? (variation 76)
28. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
29. Which option is a correct use case for decorators in Python Programming? (variation 98)
30. When working with Python Programming, why would a developer use dictionaries? (variation 91)
31. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
32. When working with Python Programming, why would a developer use dictionaries? (variation 101)
33. Which option is a correct use case for classes in Python Programming? (variation 93)
34. A student says 'file handling' is not relevant to real projects. What is the best correction?
35. What is the most accurate beginner-level explanation of function parameters? (variation 72)
36. Which statement best describes modules in Python Programming?

37. When working with Python Programming, why would a developer use dictionaries? (variation 351)
38. Which option is a correct use case for decorators in Python Programming? (variation 358)
39. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
40. Which statement best describes list comprehensions in Python Programming? (variation 100)
41. What is the most accurate beginner-level explanation of function parameters?
42. What is the most accurate beginner-level explanation of function parameters? (variation 82)
43. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
44. What is the most accurate beginner-level explanation of function parameters? (variation 352)
45. Which option is a correct use case for classes in Python Programming? (variation 353)
46. When working with Python Programming, why would a developer use virtual environments? (variation 106)
47. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
48. What is the most accurate beginner-level explanation of iterators? (variation 357)
49. When working with Python Programming, why would a developer use virtual environments?
50. What is the most accurate beginner-level explanation of function parameters? (variation 92)
51. Which statement best describes modules in Python Programming? (variation 105)
52. Which option is a correct use case for decorators in Python Programming? (variation 88)
53. What is the most accurate beginner-level explanation of function parameters? (variation 102)
54. Which option is a correct use case for classes in Python Programming?
55. Which statement best describes modules in Python Programming? (variation 95)

56. When working with Python Programming, why would a developer use virtual environments? (variation 86)

57. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)

58. When working with Python Programming, why would a developer use virtual environments? (variation 96)

59. Which statement best describes modules in Python Programming? (variation 85)

60. When working with Python Programming, why would a developer use dictionaries?
