

CBSE Previous Year Practice 2023 (2023)

Subject: General | Topic: Python Programming

1. Which option is a correct use case for classes in Python Programming? (variation 83)
2. What is the most accurate beginner-level explanation of function parameters?
3. What is the most accurate beginner-level explanation of function parameters? (variation 82)
4. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
5. When working with Python Programming, why would a developer use dictionaries? (variation 351)
6. What is the most accurate beginner-level explanation of iterators? (variation 87)
7. When working with Python Programming, why would a developer use virtual environments? (variation 356)
8. Which statement best describes modules in Python Programming? (variation 355)
9. Which option is a correct use case for decorators in Python Programming? (variation 98)
10. Which option is a correct use case for classes in Python Programming? (variation 73)
11. When working with Python Programming, why would a developer use dictionaries? (variation 101)
12. Which statement best describes list comprehensions in Python Programming? (variation 350)
13. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
14. When working with Python Programming, why would a developer use dictionaries? (variation 91)
15. Which statement best describes list comprehensions in Python Programming? (variation 100)
16. When working with Python Programming, why would a developer use dictionaries? (variation 71)
17. Which statement best describes list comprehensions in Python Programming?

18. What is the most accurate beginner-level explanation of iterators? (variation 357)
19. Which statement best describes list comprehensions in Python Programming? (variation 80)
20. Which option is a correct use case for decorators in Python Programming? (variation 88)
21. What is the most accurate beginner-level explanation of iterators? (variation 97)
22. Which statement best describes modules in Python Programming?
23. What is the most accurate beginner-level explanation of function parameters? (variation 72)
24. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
25. Which statement best describes modules in Python Programming? (variation 85)
26. What is the most accurate beginner-level explanation of iterators? (variation 107)
27. What is the most accurate beginner-level explanation of iterators?
28. Which option is a correct use case for decorators in Python Programming? (variation 78)
29. When working with Python Programming, why would a developer use virtual environments? (variation 96)
30. What is the most accurate beginner-level explanation of function parameters? (variation 352)
31. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
32. When working with Python Programming, why would a developer use dictionaries? (variation 81)
33. Which statement best describes modules in Python Programming? (variation 105)
34. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
35. When working with Python Programming, why would a developer use virtual environments? (variation 76)
36. Which statement best describes modules in Python Programming? (variation 95)

37. A student says 'exceptions' is not relevant to real projects. What is the best correction?
38. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
39. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
40. Which statement best describes list comprehensions in Python Programming? (variation 90)
41. Which statement best describes modules in Python Programming? (variation 75)
42. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
43. Which option is a correct use case for decorators in Python Programming? (variation 358)
44. Which option is a correct use case for decorators in Python Programming?
45. Which option is a correct use case for classes in Python Programming? (variation 103)
46. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
47. Which option is a correct use case for classes in Python Programming? (variation 353)
48. When working with Python Programming, why would a developer use virtual environments?
49. Which option is a correct use case for decorators in Python Programming? (variation 108)
50. A student says 'file handling' is not relevant to real projects. What is the best correction?
51. Which option is a correct use case for classes in Python Programming?
52. What is the most accurate beginner-level explanation of function parameters? (variation 92)
53. What is the most accurate beginner-level explanation of function parameters? (variation 102)
54. When working with Python Programming, why would a developer use virtual environments? (variation 86)
55. When working with Python Programming, why would a developer use dictionaries?

56. When working with Python Programming, why would a developer use virtual environments? (variation 106)

57. Which statement best describes list comprehensions in Python Programming? (variation 70)

58. Which option is a correct use case for classes in Python Programming? (variation 93)

59. What is the most accurate beginner-level explanation of iterators? (variation 77)

60. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
