

CBSE Previous Year Practice 2024 (2024)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use dictionaries? (variation 351)
2. What is the most accurate beginner-level explanation of function parameters? (variation 72)
3. When working with Python Programming, why would a developer use virtual environments? (variation 356)
4. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
5. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
6. What is the most accurate beginner-level explanation of function parameters? (variation 352)
7. Which option is a correct use case for classes in Python Programming? (variation 353)
8. What is the most accurate beginner-level explanation of function parameters? (variation 82)
9. A student says 'file handling' is not relevant to real projects. What is the best correction?
10. Which option is a correct use case for classes in Python Programming? (variation 73)
11. What is the most accurate beginner-level explanation of function parameters?
12. Which option is a correct use case for classes in Python Programming? (variation 83)
13. When working with Python Programming, why would a developer use dictionaries? (variation 81)
14. What is the most accurate beginner-level explanation of iterators? (variation 357)
15. Which option is a correct use case for decorators in Python Programming? (variation 108)
16. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
17. What is the most accurate beginner-level explanation of iterators?

18. Which statement best describes list comprehensions in Python Programming? (variation 80)
19. What is the most accurate beginner-level explanation of function parameters? (variation 92)
20. Which statement best describes modules in Python Programming? (variation 75)
21. When working with Python Programming, why would a developer use virtual environments? (variation 76)
22. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
23. When working with Python Programming, why would a developer use virtual environments? (variation 86)
24. Which option is a correct use case for classes in Python Programming? (variation 103)
25. Which option is a correct use case for decorators in Python Programming? (variation 78)
26. Which statement best describes list comprehensions in Python Programming?
27. Which statement best describes list comprehensions in Python Programming? (variation 70)
28. When working with Python Programming, why would a developer use virtual environments? (variation 106)
29. Which option is a correct use case for classes in Python Programming? (variation 93)
30. Which statement best describes list comprehensions in Python Programming? (variation 100)
31. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
32. What is the most accurate beginner-level explanation of function parameters? (variation 102)
33. When working with Python Programming, why would a developer use dictionaries? (variation 91)
34. What is the most accurate beginner-level explanation of iterators? (variation 77)
35. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
36. What is the most accurate beginner-level explanation of iterators? (variation 87)

37. A student says 'exceptions' is not relevant to real projects. What is the best correction?
38. When working with Python Programming, why would a developer use dictionaries? (variation 71)
39. What is the most accurate beginner-level explanation of iterators? (variation 107)
40. Which option is a correct use case for decorators in Python Programming? (variation 88)
41. Which statement best describes list comprehensions in Python Programming? (variation 350)
42. When working with Python Programming, why would a developer use virtual environments?
43. Which option is a correct use case for classes in Python Programming?
44. Which option is a correct use case for decorators in Python Programming?
45. What is the most accurate beginner-level explanation of iterators? (variation 97)
46. Which option is a correct use case for decorators in Python Programming? (variation 358)
47. Which statement best describes modules in Python Programming?
48. Which option is a correct use case for decorators in Python Programming? (variation 98)
49. When working with Python Programming, why would a developer use dictionaries? (variation 101)
50. Which statement best describes modules in Python Programming? (variation 85)
51. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
52. Which statement best describes modules in Python Programming? (variation 95)
53. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
54. When working with Python Programming, why would a developer use dictionaries?
55. Which statement best describes modules in Python Programming? (variation 105)

56. Which statement best describes list comprehensions in Python Programming? (variation 90)

57. Which statement best describes modules in Python Programming? (variation 355)

58. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)

59. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)

60. When working with Python Programming, why would a developer use virtual environments? (variation 96)
