

ICSE Previous Year Practice 2024 (2024)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use virtual environments? (variation 106)
2. When working with Python Programming, why would a developer use virtual environments? (variation 76)
3. Which statement best describes list comprehensions in Python Programming?
4. Which statement best describes modules in Python Programming? (variation 355)
5. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
6. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
7. Which statement best describes modules in Python Programming? (variation 85)
8. What is the most accurate beginner-level explanation of iterators?
9. When working with Python Programming, why would a developer use dictionaries?
10. Which statement best describes modules in Python Programming? (variation 105)
11. Which option is a correct use case for classes in Python Programming? (variation 103)
12. Which statement best describes list comprehensions in Python Programming? (variation 350)
13. When working with Python Programming, why would a developer use virtual environments? (variation 86)
14. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
15. Which statement best describes modules in Python Programming? (variation 95)
16. What is the most accurate beginner-level explanation of iterators? (variation 107)
17. When working with Python Programming, why would a developer use dictionaries? (variation 101)

18. What is the most accurate beginner-level explanation of function parameters? (variation 352)
19. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
20. What is the most accurate beginner-level explanation of function parameters? (variation 102)
21. Which option is a correct use case for classes in Python Programming? (variation 93)
22. When working with Python Programming, why would a developer use dictionaries? (variation 351)
23. Which option is a correct use case for classes in Python Programming? (variation 353)
24. A student says 'file handling' is not relevant to real projects. What is the best correction?
25. What is the most accurate beginner-level explanation of iterators? (variation 87)
26. What is the most accurate beginner-level explanation of iterators? (variation 77)
27. When working with Python Programming, why would a developer use dictionaries? (variation 81)
28. What is the most accurate beginner-level explanation of function parameters? (variation 82)
29. What is the most accurate beginner-level explanation of function parameters?
30. What is the most accurate beginner-level explanation of function parameters? (variation 72)
31. What is the most accurate beginner-level explanation of iterators? (variation 357)
32. Which statement best describes list comprehensions in Python Programming? (variation 90)
33. Which option is a correct use case for classes in Python Programming?
34. When working with Python Programming, why would a developer use virtual environments? (variation 356)
35. Which option is a correct use case for classes in Python Programming? (variation 73)
36. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)

37. Which statement best describes list comprehensions in Python Programming? (variation 100)
38. Which statement best describes list comprehensions in Python Programming? (variation 80)
39. Which option is a correct use case for decorators in Python Programming?
40. Which statement best describes modules in Python Programming?
41. Which option is a correct use case for classes in Python Programming? (variation 83)
42. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
43. A student says 'exceptions' is not relevant to real projects. What is the best correction?
44. When working with Python Programming, why would a developer use dictionaries? (variation 71)
45. Which option is a correct use case for decorators in Python Programming? (variation 108)
46. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
47. Which option is a correct use case for decorators in Python Programming? (variation 98)
48. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
49. When working with Python Programming, why would a developer use virtual environments? (variation 96)
50. Which option is a correct use case for decorators in Python Programming? (variation 88)
51. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
52. Which option is a correct use case for decorators in Python Programming? (variation 78)
53. Which option is a correct use case for decorators in Python Programming? (variation 358)
54. Which statement best describes modules in Python Programming? (variation 75)
55. What is the most accurate beginner-level explanation of function parameters? (variation 92)

56. Which statement best describes list comprehensions in Python Programming? (variation 70)
57. When working with Python Programming, why would a developer use virtual environments?
58. When working with Python Programming, why would a developer use dictionaries? (variation 91)
59. What is the most accurate beginner-level explanation of iterators? (variation 97)
60. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
