

ICSE Previous Year Practice 2025 (2025)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use virtual environments? (variation 96)
2. What is the most accurate beginner-level explanation of iterators? (variation 357)
3. Which option is a correct use case for classes in Python Programming?
4. What is the most accurate beginner-level explanation of function parameters? (variation 92)
5. When working with Python Programming, why would a developer use virtual environments?
6. Which statement best describes list comprehensions in Python Programming? (variation 100)
7. What is the most accurate beginner-level explanation of iterators? (variation 107)
8. Which statement best describes modules in Python Programming? (variation 85)
9. Which option is a correct use case for decorators in Python Programming? (variation 108)
10. Which statement best describes modules in Python Programming? (variation 95)
11. When working with Python Programming, why would a developer use dictionaries?
12. What is the most accurate beginner-level explanation of function parameters? (variation 352)
13. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
14. Which option is a correct use case for decorators in Python Programming?
15. When working with Python Programming, why would a developer use dictionaries? (variation 101)
16. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
17. What is the most accurate beginner-level explanation of function parameters? (variation 102)

18. Which option is a correct use case for decorators in Python Programming? (variation 98)
19. Which option is a correct use case for classes in Python Programming? (variation 353)
20. Which statement best describes list comprehensions in Python Programming? (variation 350)
21. What is the most accurate beginner-level explanation of function parameters? (variation 72)
22. Which statement best describes list comprehensions in Python Programming? (variation 90)
23. What is the most accurate beginner-level explanation of iterators? (variation 97)
24. When working with Python Programming, why would a developer use virtual environments? (variation 76)
25. Which option is a correct use case for classes in Python Programming? (variation 93)
26. Which option is a correct use case for classes in Python Programming? (variation 83)
27. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
28. When working with Python Programming, why would a developer use virtual environments? (variation 356)
29. When working with Python Programming, why would a developer use dictionaries? (variation 71)
30. When working with Python Programming, why would a developer use dictionaries? (variation 81)
31. A student says 'file handling' is not relevant to real projects. What is the best correction?
32. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
33. Which option is a correct use case for decorators in Python Programming? (variation 88)
34. What is the most accurate beginner-level explanation of iterators? (variation 77)
35. Which option is a correct use case for decorators in Python Programming? (variation 78)
36. When working with Python Programming, why would a developer use virtual environments? (variation 86)

37. When working with Python Programming, why would a developer use virtual environments? (variation 106)
38. Which option is a correct use case for classes in Python Programming? (variation 103)
39. What is the most accurate beginner-level explanation of iterators? (variation 87)
40. A student says 'exceptions' is not relevant to real projects. What is the best correction?
41. Which statement best describes list comprehensions in Python Programming? (variation 80)
42. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
43. Which statement best describes modules in Python Programming? (variation 105)
44. Which statement best describes modules in Python Programming? (variation 75)
45. Which statement best describes modules in Python Programming? (variation 355)
46. Which option is a correct use case for decorators in Python Programming? (variation 358)
47. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
48. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
49. Which statement best describes list comprehensions in Python Programming? (variation 70)
50. Which statement best describes list comprehensions in Python Programming?
51. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
52. Which statement best describes modules in Python Programming?
53. What is the most accurate beginner-level explanation of iterators?
54. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
55. Which option is a correct use case for classes in Python Programming? (variation 73)

56. What is the most accurate beginner-level explanation of function parameters?
57. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
58. What is the most accurate beginner-level explanation of function parameters? (variation 82)
59. When working with Python Programming, why would a developer use dictionaries? (variation 351)
60. When working with Python Programming, why would a developer use dictionaries? (variation 91)
