

State Board Previous Year Practice 2023 (2023)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use dictionaries? (variation 91)
2. When working with Python Programming, why would a developer use dictionaries? (variation 101)
3. What is the most accurate beginner-level explanation of function parameters? (variation 72)
4. Which option is a correct use case for decorators in Python Programming? (variation 108)
5. Which statement best describes modules in Python Programming? (variation 355)
6. Which statement best describes modules in Python Programming? (variation 75)
7. Which statement best describes list comprehensions in Python Programming? (variation 100)
8. Which statement best describes list comprehensions in Python Programming? (variation 350)
9. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
10. Which option is a correct use case for classes in Python Programming? (variation 93)
11. Which statement best describes modules in Python Programming? (variation 95)
12. Which option is a correct use case for classes in Python Programming? (variation 83)
13. What is the most accurate beginner-level explanation of function parameters? (variation 352)
14. Which option is a correct use case for classes in Python Programming? (variation 353)
15. What is the most accurate beginner-level explanation of function parameters? (variation 82)
16. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
17. When working with Python Programming, why would a developer use virtual environments? (variation 86)

18. What is the most accurate beginner-level explanation of function parameters? (variation 102)
19. What is the most accurate beginner-level explanation of function parameters? (variation 92)
20. Which statement best describes list comprehensions in Python Programming?
21. What is the most accurate beginner-level explanation of function parameters?
22. Which option is a correct use case for decorators in Python Programming? (variation 78)
23. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
24. Which statement best describes list comprehensions in Python Programming? (variation 70)
25. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
26. Which option is a correct use case for decorators in Python Programming? (variation 358)
27. What is the most accurate beginner-level explanation of iterators? (variation 77)
28. What is the most accurate beginner-level explanation of iterators?
29. When working with Python Programming, why would a developer use dictionaries?
30. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
31. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
32. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
33. When working with Python Programming, why would a developer use virtual environments?
34. Which statement best describes modules in Python Programming?
35. When working with Python Programming, why would a developer use dictionaries? (variation 81)
36. A student says 'exceptions' is not relevant to real projects. What is the best correction?

37. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
38. What is the most accurate beginner-level explanation of iterators? (variation 97)
39. Which statement best describes modules in Python Programming? (variation 85)
40. When working with Python Programming, why would a developer use virtual environments? (variation 356)
41. When working with Python Programming, why would a developer use dictionaries? (variation 71)
42. What is the most accurate beginner-level explanation of iterators? (variation 357)
43. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
44. Which option is a correct use case for classes in Python Programming?
45. Which option is a correct use case for decorators in Python Programming? (variation 98)
46. What is the most accurate beginner-level explanation of iterators? (variation 87)
47. When working with Python Programming, why would a developer use virtual environments? (variation 106)
48. Which option is a correct use case for classes in Python Programming? (variation 73)
49. When working with Python Programming, why would a developer use virtual environments? (variation 76)
50. When working with Python Programming, why would a developer use virtual environments? (variation 96)
51. A student says 'file handling' is not relevant to real projects. What is the best correction?
52. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
53. Which statement best describes list comprehensions in Python Programming? (variation 80)
54. Which statement best describes list comprehensions in Python Programming? (variation 90)
55. Which statement best describes modules in Python Programming? (variation 105)

56. Which option is a correct use case for decorators in Python Programming?

57. When working with Python Programming, why would a developer use dictionaries? (variation 351)

58. Which option is a correct use case for decorators in Python Programming? (variation 88)

59. Which option is a correct use case for classes in Python Programming? (variation 103)

60. What is the most accurate beginner-level explanation of iterators? (variation 107)
