

IIT-JEE Previous Year Practice 2017 (2017)

Subject: General | Topic: Python Programming

1. Which option is a correct use case for decorators in Python Programming? (variation 108)
2. Which option is a correct use case for classes in Python Programming? (variation 83)
3. When working with Python Programming, why would a developer use dictionaries? (variation 351)
4. Which option is a correct use case for classes in Python Programming? (variation 353)
5. Which option is a correct use case for classes in Python Programming? (variation 93)
6. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
7. What is the most accurate beginner-level explanation of iterators? (variation 97)
8. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
9. Which statement best describes list comprehensions in Python Programming? (variation 80)
10. What is the most accurate beginner-level explanation of function parameters? (variation 72)
11. When working with Python Programming, why would a developer use virtual environments? (variation 86)
12. What is the most accurate beginner-level explanation of function parameters? (variation 92)
13. Which statement best describes list comprehensions in Python Programming? (variation 90)
14. Which statement best describes list comprehensions in Python Programming? (variation 100)
15. Which option is a correct use case for decorators in Python Programming? (variation 358)
16. When working with Python Programming, why would a developer use dictionaries?
17. When working with Python Programming, why would a developer use virtual environments?

18. Which statement best describes list comprehensions in Python Programming?
19. Which statement best describes list comprehensions in Python Programming? (variation 350)
20. Which option is a correct use case for decorators in Python Programming?
21. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
22. Which statement best describes modules in Python Programming? (variation 355)
23. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
24. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
25. Which option is a correct use case for classes in Python Programming? (variation 73)
26. A student says 'exceptions' is not relevant to real projects. What is the best correction?
27. Which option is a correct use case for classes in Python Programming?
28. Which option is a correct use case for decorators in Python Programming? (variation 88)
29. When working with Python Programming, why would a developer use dictionaries? (variation 71)
30. What is the most accurate beginner-level explanation of iterators? (variation 77)
31. What is the most accurate beginner-level explanation of iterators? (variation 87)
32. What is the most accurate beginner-level explanation of iterators? (variation 107)
33. What is the most accurate beginner-level explanation of iterators? (variation 357)
34. Which statement best describes modules in Python Programming? (variation 75)
35. What is the most accurate beginner-level explanation of function parameters?
36. When working with Python Programming, why would a developer use virtual environments? (variation 76)

37. Which statement best describes modules in Python Programming? (variation 105)
38. When working with Python Programming, why would a developer use virtual environments? (variation 96)
39. When working with Python Programming, why would a developer use dictionaries? (variation 81)
40. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
41. What is the most accurate beginner-level explanation of iterators?
42. When working with Python Programming, why would a developer use dictionaries? (variation 91)
43. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
44. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
45. When working with Python Programming, why would a developer use dictionaries? (variation 101)
46. When working with Python Programming, why would a developer use virtual environments? (variation 356)
47. Which option is a correct use case for classes in Python Programming? (variation 103)
48. Which option is a correct use case for decorators in Python Programming? (variation 98)
49. Which option is a correct use case for decorators in Python Programming? (variation 78)
50. When working with Python Programming, why would a developer use virtual environments? (variation 106)
51. What is the most accurate beginner-level explanation of function parameters? (variation 82)
52. What is the most accurate beginner-level explanation of function parameters? (variation 352)
53. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
54. Which statement best describes modules in Python Programming?
55. What is the most accurate beginner-level explanation of function parameters? (variation 102)

56. A student says 'file handling' is not relevant to real projects. What is the best correction?

57. Which statement best describes modules in Python Programming? (variation 85)

58. Which statement best describes list comprehensions in Python Programming? (variation 70)

59. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)

60. Which statement best describes modules in Python Programming? (variation 95)
