

IIT-JEE Previous Year Practice 2019 (2019)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use virtual environments? (variation 356)
2. What is the most accurate beginner-level explanation of iterators? (variation 357)
3. Which option is a correct use case for classes in Python Programming? (variation 83)
4. Which option is a correct use case for decorators in Python Programming? (variation 98)
5. Which option is a correct use case for classes in Python Programming? (variation 103)
6. What is the most accurate beginner-level explanation of function parameters? (variation 82)
7. Which option is a correct use case for classes in Python Programming? (variation 353)
8. A student says 'file handling' is not relevant to real projects. What is the best correction?
9. What is the most accurate beginner-level explanation of iterators? (variation 77)
10. What is the most accurate beginner-level explanation of iterators? (variation 87)
11. Which statement best describes modules in Python Programming?
12. When working with Python Programming, why would a developer use virtual environments? (variation 106)
13. Which statement best describes modules in Python Programming? (variation 355)
14. Which statement best describes list comprehensions in Python Programming? (variation 350)
15. Which statement best describes modules in Python Programming? (variation 85)
16. Which statement best describes modules in Python Programming? (variation 105)
17. What is the most accurate beginner-level explanation of iterators? (variation 107)

18. When working with Python Programming, why would a developer use dictionaries? (variation 71)
19. Which statement best describes modules in Python Programming? (variation 75)
20. When working with Python Programming, why would a developer use dictionaries? (variation 101)
21. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
22. What is the most accurate beginner-level explanation of function parameters? (variation 92)
23. Which statement best describes list comprehensions in Python Programming? (variation 70)
24. Which statement best describes list comprehensions in Python Programming?
25. Which statement best describes list comprehensions in Python Programming? (variation 80)
26. What is the most accurate beginner-level explanation of function parameters? (variation 72)
27. When working with Python Programming, why would a developer use dictionaries?
28. What is the most accurate beginner-level explanation of function parameters? (variation 102)
29. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
30. Which option is a correct use case for classes in Python Programming?
31. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
32. When working with Python Programming, why would a developer use virtual environments? (variation 76)
33. Which option is a correct use case for decorators in Python Programming? (variation 88)
34. Which option is a correct use case for decorators in Python Programming? (variation 78)
35. When working with Python Programming, why would a developer use dictionaries? (variation 81)
36. Which option is a correct use case for decorators in Python Programming? (variation 108)

37. Which statement best describes list comprehensions in Python Programming? (variation 100)
38. When working with Python Programming, why would a developer use virtual environments?
39. When working with Python Programming, why would a developer use dictionaries? (variation 91)
40. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
41. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
42. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
43. What is the most accurate beginner-level explanation of function parameters?
44. What is the most accurate beginner-level explanation of iterators? (variation 97)
45. A student says 'exceptions' is not relevant to real projects. What is the best correction?
46. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
47. Which option is a correct use case for classes in Python Programming? (variation 73)
48. When working with Python Programming, why would a developer use virtual environments? (variation 96)
49. Which option is a correct use case for decorators in Python Programming?
50. When working with Python Programming, why would a developer use virtual environments? (variation 86)
51. What is the most accurate beginner-level explanation of function parameters? (variation 352)
52. Which option is a correct use case for classes in Python Programming? (variation 93)
53. What is the most accurate beginner-level explanation of iterators?
54. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
55. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)

56. Which statement best describes list comprehensions in Python Programming? (variation 90)
57. Which statement best describes modules in Python Programming? (variation 95)
58. When working with Python Programming, why would a developer use dictionaries? (variation 351)
59. Which option is a correct use case for decorators in Python Programming? (variation 358)
60. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
