

IIT-JEE Previous Year Practice 2022 (2022)

Subject: General | Topic: Python Programming

1. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
2. Which statement best describes modules in Python Programming? (variation 95)
3. Which option is a correct use case for classes in Python Programming?
4. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
5. What is the most accurate beginner-level explanation of iterators? (variation 97)
6. Which option is a correct use case for decorators in Python Programming? (variation 358)
7. When working with Python Programming, why would a developer use virtual environments?
8. When working with Python Programming, why would a developer use virtual environments? (variation 86)
9. What is the most accurate beginner-level explanation of function parameters? (variation 352)
10. Which statement best describes list comprehensions in Python Programming? (variation 80)
11. When working with Python Programming, why would a developer use dictionaries? (variation 101)
12. Which option is a correct use case for classes in Python Programming? (variation 73)
13. Which option is a correct use case for classes in Python Programming? (variation 93)
14. Which option is a correct use case for classes in Python Programming? (variation 103)
15. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
16. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
17. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)

18. Which statement best describes list comprehensions in Python Programming? (variation 90)
19. What is the most accurate beginner-level explanation of function parameters? (variation 82)
20. Which statement best describes modules in Python Programming? (variation 85)
21. When working with Python Programming, why would a developer use virtual environments? (variation 356)
22. What is the most accurate beginner-level explanation of function parameters?
23. Which statement best describes modules in Python Programming?
24. Which statement best describes list comprehensions in Python Programming? (variation 350)
25. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
26. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
27. What is the most accurate beginner-level explanation of iterators?
28. What is the most accurate beginner-level explanation of function parameters? (variation 72)
29. When working with Python Programming, why would a developer use dictionaries? (variation 91)
30. What is the most accurate beginner-level explanation of function parameters? (variation 92)
31. Which option is a correct use case for classes in Python Programming? (variation 83)
32. What is the most accurate beginner-level explanation of iterators? (variation 87)
33. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
34. Which option is a correct use case for decorators in Python Programming? (variation 98)
35. Which statement best describes modules in Python Programming? (variation 355)
36. A student says 'file handling' is not relevant to real projects. What is the best correction?

37. What is the most accurate beginner-level explanation of function parameters? (variation 102)
38. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
39. Which statement best describes list comprehensions in Python Programming? (variation 70)
40. Which statement best describes list comprehensions in Python Programming? (variation 100)
41. Which option is a correct use case for decorators in Python Programming? (variation 108)
42. When working with Python Programming, why would a developer use virtual environments? (variation 76)
43. When working with Python Programming, why would a developer use dictionaries?
44. Which statement best describes list comprehensions in Python Programming?
45. Which statement best describes modules in Python Programming? (variation 75)
46. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
47. Which option is a correct use case for classes in Python Programming? (variation 353)
48. When working with Python Programming, why would a developer use dictionaries? (variation 351)
49. When working with Python Programming, why would a developer use virtual environments? (variation 106)
50. When working with Python Programming, why would a developer use dictionaries? (variation 81)
51. When working with Python Programming, why would a developer use virtual environments? (variation 96)
52. What is the most accurate beginner-level explanation of iterators? (variation 77)
53. Which statement best describes modules in Python Programming? (variation 105)
54. What is the most accurate beginner-level explanation of iterators? (variation 357)
55. A student says 'exceptions' is not relevant to real projects. What is the best correction?

56. What is the most accurate beginner-level explanation of iterators? (variation 107)

57. Which option is a correct use case for decorators in Python Programming? (variation 78)

58. Which option is a correct use case for decorators in Python Programming? (variation 88)

59. Which option is a correct use case for decorators in Python Programming?

60. When working with Python Programming, why would a developer use dictionaries? (variation 71)
