

IIT-JEE Previous Year Practice 2024 (2024)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use virtual environments? (variation 106)
2. When working with Python Programming, why would a developer use virtual environments? (variation 86)
3. Which option is a correct use case for decorators in Python Programming? (variation 98)
4. Which statement best describes modules in Python Programming? (variation 355)
5. A student says 'file handling' is not relevant to real projects. What is the best correction?
6. Which option is a correct use case for classes in Python Programming? (variation 93)
7. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
8. Which option is a correct use case for classes in Python Programming? (variation 73)
9. Which statement best describes list comprehensions in Python Programming?
10. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
11. When working with Python Programming, why would a developer use dictionaries?
12. Which option is a correct use case for decorators in Python Programming? (variation 88)
13. Which option is a correct use case for classes in Python Programming? (variation 83)
14. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
15. Which statement best describes modules in Python Programming? (variation 75)
16. What is the most accurate beginner-level explanation of function parameters? (variation 92)
17. What is the most accurate beginner-level explanation of iterators? (variation 107)

18. Which statement best describes list comprehensions in Python Programming? (variation 90)
19. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
20. Which statement best describes modules in Python Programming? (variation 105)
21. When working with Python Programming, why would a developer use virtual environments? (variation 356)
22. When working with Python Programming, why would a developer use dictionaries? (variation 351)
23. What is the most accurate beginner-level explanation of function parameters?
24. What is the most accurate beginner-level explanation of iterators? (variation 77)
25. Which statement best describes list comprehensions in Python Programming? (variation 70)
26. Which option is a correct use case for decorators in Python Programming? (variation 108)
27. When working with Python Programming, why would a developer use virtual environments? (variation 76)
28. Which option is a correct use case for decorators in Python Programming? (variation 358)
29. What is the most accurate beginner-level explanation of iterators? (variation 357)
30. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
31. Which statement best describes modules in Python Programming? (variation 95)
32. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
33. Which option is a correct use case for decorators in Python Programming? (variation 78)
34. When working with Python Programming, why would a developer use dictionaries? (variation 101)
35. What is the most accurate beginner-level explanation of iterators?
36. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)

37. What is the most accurate beginner-level explanation of function parameters? (variation 72)
38. When working with Python Programming, why would a developer use dictionaries? (variation 81)
39. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
40. Which option is a correct use case for decorators in Python Programming?
41. Which option is a correct use case for classes in Python Programming? (variation 103)
42. When working with Python Programming, why would a developer use dictionaries? (variation 91)
43. What is the most accurate beginner-level explanation of iterators? (variation 87)
44. Which statement best describes modules in Python Programming?
45. What is the most accurate beginner-level explanation of function parameters? (variation 82)
46. When working with Python Programming, why would a developer use virtual environments?
47. Which statement best describes list comprehensions in Python Programming? (variation 350)
48. What is the most accurate beginner-level explanation of function parameters? (variation 352)
49. A student says 'exceptions' is not relevant to real projects. What is the best correction?
50. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
51. Which option is a correct use case for classes in Python Programming?
52. What is the most accurate beginner-level explanation of iterators? (variation 97)
53. Which statement best describes list comprehensions in Python Programming? (variation 80)
54. When working with Python Programming, why would a developer use dictionaries? (variation 71)
55. When working with Python Programming, why would a developer use virtual environments? (variation 96)

56. Which statement best describes modules in Python Programming? (variation 85)
57. What is the most accurate beginner-level explanation of function parameters? (variation 102)
58. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
59. Which option is a correct use case for classes in Python Programming? (variation 353)
60. Which statement best describes list comprehensions in Python Programming? (variation 100)
