

NEET Previous Year Practice 2020 (2020)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use virtual environments? (variation 86)
2. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
3. Which statement best describes modules in Python Programming? (variation 75)
4. When working with Python Programming, why would a developer use virtual environments? (variation 76)
5. When working with Python Programming, why would a developer use virtual environments?
6. What is the most accurate beginner-level explanation of iterators?
7. Which option is a correct use case for classes in Python Programming? (variation 93)
8. What is the most accurate beginner-level explanation of iterators? (variation 357)
9. Which statement best describes list comprehensions in Python Programming? (variation 70)
10. Which statement best describes modules in Python Programming?
11. Which statement best describes list comprehensions in Python Programming? (variation 350)
12. What is the most accurate beginner-level explanation of function parameters? (variation 72)
13. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
14. When working with Python Programming, why would a developer use virtual environments? (variation 96)
15. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
16. What is the most accurate beginner-level explanation of iterators? (variation 77)
17. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)

18. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
19. Which statement best describes list comprehensions in Python Programming?
20. Which option is a correct use case for classes in Python Programming? (variation 73)
21. When working with Python Programming, why would a developer use dictionaries? (variation 351)
22. What is the most accurate beginner-level explanation of iterators? (variation 97)
23. When working with Python Programming, why would a developer use dictionaries?
24. Which option is a correct use case for classes in Python Programming? (variation 353)
25. Which statement best describes list comprehensions in Python Programming? (variation 90)
26. Which option is a correct use case for decorators in Python Programming?
27. Which option is a correct use case for decorators in Python Programming? (variation 108)
28. Which option is a correct use case for decorators in Python Programming? (variation 88)
29. When working with Python Programming, why would a developer use virtual environments? (variation 356)
30. When working with Python Programming, why would a developer use dictionaries? (variation 91)
31. Which option is a correct use case for classes in Python Programming? (variation 83)
32. Which option is a correct use case for classes in Python Programming? (variation 103)
33. Which option is a correct use case for decorators in Python Programming? (variation 358)
34. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)
35. Which option is a correct use case for decorators in Python Programming? (variation 98)
36. When working with Python Programming, why would a developer use dictionaries? (variation 81)

37. What is the most accurate beginner-level explanation of iterators? (variation 87)
38. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
39. Which option is a correct use case for decorators in Python Programming? (variation 78)
40. What is the most accurate beginner-level explanation of function parameters?
41. When working with Python Programming, why would a developer use dictionaries? (variation 101)
42. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
43. When working with Python Programming, why would a developer use virtual environments? (variation 106)
44. What is the most accurate beginner-level explanation of function parameters? (variation 82)
45. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
46. What is the most accurate beginner-level explanation of function parameters? (variation 352)
47. Which statement best describes modules in Python Programming? (variation 105)
48. What is the most accurate beginner-level explanation of iterators? (variation 107)
49. Which statement best describes list comprehensions in Python Programming? (variation 80)
50. Which statement best describes modules in Python Programming? (variation 85)
51. Which statement best describes modules in Python Programming? (variation 355)
52. When working with Python Programming, why would a developer use dictionaries? (variation 71)
53. Which option is a correct use case for classes in Python Programming?
54. Which statement best describes list comprehensions in Python Programming? (variation 100)
55. A student says 'file handling' is not relevant to real projects. What is the best correction?

56. Which statement best describes modules in Python Programming? (variation 95)

57. What is the most accurate beginner-level explanation of function parameters? (variation 92)

58. What is the most accurate beginner-level explanation of function parameters? (variation 102)

59. A student says 'exceptions' is not relevant to real projects. What is the best correction?

60. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
