

University Exams Previous Year Practice 2021 (2021)

Subject: General | Topic: Python Programming

1. When working with Python Programming, why would a developer use virtual environments? (variation 96)
2. A student says 'exceptions' is not relevant to real projects. What is the best correction?
3. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 74)
4. Which option is a correct use case for decorators in Python Programming? (variation 108)
5. Which option is a correct use case for decorators in Python Programming?
6. When working with Python Programming, why would a developer use virtual environments? (variation 106)
7. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 99)
8. Which statement best describes list comprehensions in Python Programming? (variation 80)
9. Which option is a correct use case for decorators in Python Programming? (variation 98)
10. A student says 'file handling' is not relevant to real projects. What is the best correction?
11. What is the most accurate beginner-level explanation of iterators? (variation 87)
12. Which statement best describes modules in Python Programming? (variation 95)
13. When working with Python Programming, why would a developer use virtual environments? (variation 356)
14. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 89)
15. Which option is a correct use case for classes in Python Programming? (variation 73)
16. When working with Python Programming, why would a developer use dictionaries?
17. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 359)

18. Which statement best describes modules in Python Programming?
19. What is the most accurate beginner-level explanation of function parameters? (variation 72)
20. Which statement best describes modules in Python Programming? (variation 85)
21. Which statement best describes list comprehensions in Python Programming? (variation 90)
22. What is the most accurate beginner-level explanation of function parameters?
23. What is the most accurate beginner-level explanation of iterators? (variation 357)
24. What is the most accurate beginner-level explanation of function parameters? (variation 92)
25. Which statement best describes modules in Python Programming? (variation 75)
26. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 94)
27. Which statement best describes modules in Python Programming? (variation 105)
28. Which option is a correct use case for classes in Python Programming? (variation 353)
29. What is the most accurate beginner-level explanation of function parameters? (variation 82)
30. What is the most accurate beginner-level explanation of function parameters? (variation 102)
31. What is the most accurate beginner-level explanation of iterators?
32. When working with Python Programming, why would a developer use virtual environments? (variation 76)
33. What is the most accurate beginner-level explanation of function parameters? (variation 352)
34. Which option is a correct use case for classes in Python Programming? (variation 83)
35. What is the most accurate beginner-level explanation of iterators? (variation 77)
36. Which option is a correct use case for decorators in Python Programming? (variation 78)

37. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 84)
38. When working with Python Programming, why would a developer use dictionaries? (variation 91)
39. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 79)
40. Which statement best describes list comprehensions in Python Programming? (variation 100)
41. When working with Python Programming, why would a developer use virtual environments? (variation 86)
42. Which statement best describes list comprehensions in Python Programming? (variation 350)
43. When working with Python Programming, why would a developer use dictionaries? (variation 101)
44. A student says 'file handling' is not relevant to real projects. What is the best correction? (variation 109)
45. Which statement best describes list comprehensions in Python Programming?
46. Which option is a correct use case for classes in Python Programming? (variation 93)
47. Which statement best describes list comprehensions in Python Programming? (variation 70)
48. Which option is a correct use case for decorators in Python Programming? (variation 88)
49. Which option is a correct use case for classes in Python Programming? (variation 103)
50. Which option is a correct use case for classes in Python Programming?
51. What is the most accurate beginner-level explanation of iterators? (variation 97)
52. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 354)
53. When working with Python Programming, why would a developer use dictionaries? (variation 81)
54. When working with Python Programming, why would a developer use virtual environments?
55. When working with Python Programming, why would a developer use dictionaries? (variation 71)

56. What is the most accurate beginner-level explanation of iterators? (variation 107)
57. Which option is a correct use case for decorators in Python Programming? (variation 358)
58. Which statement best describes modules in Python Programming? (variation 355)
59. When working with Python Programming, why would a developer use dictionaries? (variation 351)
60. A student says 'exceptions' is not relevant to real projects. What is the best correction? (variation 104)
