

CBSE Previous Year Practice 2019 (2019)

Subject: General | Topic: Computer Networks

1. Which statement best describes HTTP in Computer Networks? (variation 105)
2. Which statement best describes IP addresses in Computer Networks? (variation 90)
3. Which option is a correct use case for UDP in Computer Networks? (variation 73)
4. Which option is a correct use case for latency in Computer Networks? (variation 108)
5. Which option is a correct use case for latency in Computer Networks?
6. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
7. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
8. A student says 'ports' is not relevant to real projects. What is the best correction?
9. Which option is a correct use case for latency in Computer Networks? (variation 98)
10. When working with Computer Networks, why would a developer use routing?
11. What is the most accurate beginner-level explanation of switches? (variation 87)
12. Which statement best describes HTTP in Computer Networks? (variation 75)
13. What is the most accurate beginner-level explanation of switches? (variation 107)
14. Which statement best describes HTTP in Computer Networks? (variation 85)
15. Which statement best describes HTTP in Computer Networks?
16. When working with Computer Networks, why would a developer use subnets? (variation 71)
17. Which statement best describes IP addresses in Computer Networks? (variation 80)

18. Which option is a correct use case for latency in Computer Networks? (variation 88)
19. What is the most accurate beginner-level explanation of switches? (variation 97)
20. Which statement best describes HTTP in Computer Networks? (variation 95)
21. What is the most accurate beginner-level explanation of TCP? (variation 82)
22. When working with Computer Networks, why would a developer use subnets? (variation 351)
23. What is the most accurate beginner-level explanation of switches? (variation 77)
24. What is the most accurate beginner-level explanation of TCP? (variation 352)
25. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
26. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
27. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
28. Which option is a correct use case for UDP in Computer Networks? (variation 103)
29. When working with Computer Networks, why would a developer use routing? (variation 76)
30. Which option is a correct use case for latency in Computer Networks? (variation 78)
31. Which option is a correct use case for UDP in Computer Networks? (variation 353)
32. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
33. Which statement best describes IP addresses in Computer Networks? (variation 70)
34. What is the most accurate beginner-level explanation of TCP?
35. Which statement best describes IP addresses in Computer Networks? (variation 350)
36. A student says 'DNS' is not relevant to real projects. What is the best correction?

37. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
38. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
39. When working with Computer Networks, why would a developer use routing? (variation 96)
40. Which option is a correct use case for UDP in Computer Networks?
41. When working with Computer Networks, why would a developer use subnets? (variation 81)
42. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
43. When working with Computer Networks, why would a developer use routing? (variation 356)
44. Which statement best describes IP addresses in Computer Networks?
45. When working with Computer Networks, why would a developer use routing? (variation 86)
46. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
47. When working with Computer Networks, why would a developer use subnets? (variation 101)
48. Which option is a correct use case for UDP in Computer Networks? (variation 83)
49. What is the most accurate beginner-level explanation of switches? (variation 357)
50. Which option is a correct use case for latency in Computer Networks? (variation 358)
51. Which statement best describes HTTP in Computer Networks? (variation 355)
52. When working with Computer Networks, why would a developer use subnets? (variation 91)
53. What is the most accurate beginner-level explanation of TCP? (variation 92)
54. When working with Computer Networks, why would a developer use routing? (variation 106)
55. Which statement best describes IP addresses in Computer Networks? (variation 100)

56. When working with Computer Networks, why would a developer use subnets?
57. What is the most accurate beginner-level explanation of TCP? (variation 102)
58. Which option is a correct use case for UDP in Computer Networks? (variation 93)
59. What is the most accurate beginner-level explanation of TCP? (variation 72)
60. What is the most accurate beginner-level explanation of switches?
