

CBSE Previous Year Practice 2020 (2020)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for UDP in Computer Networks? (variation 73)
2. What is the most accurate beginner-level explanation of TCP?
3. What is the most accurate beginner-level explanation of switches? (variation 97)
4. Which statement best describes HTTP in Computer Networks? (variation 105)
5. When working with Computer Networks, why would a developer use routing? (variation 76)
6. When working with Computer Networks, why would a developer use subnets?
7. Which option is a correct use case for latency in Computer Networks? (variation 88)
8. When working with Computer Networks, why would a developer use subnets? (variation 91)
9. What is the most accurate beginner-level explanation of TCP? (variation 82)
10. Which option is a correct use case for latency in Computer Networks? (variation 78)
11. A student says 'DNS' is not relevant to real projects. What is the best correction?
12. What is the most accurate beginner-level explanation of TCP? (variation 102)
13. When working with Computer Networks, why would a developer use subnets? (variation 351)
14. What is the most accurate beginner-level explanation of TCP? (variation 92)
15. Which statement best describes IP addresses in Computer Networks? (variation 90)
16. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
17. What is the most accurate beginner-level explanation of switches? (variation 77)

18. What is the most accurate beginner-level explanation of switches?
19. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
20. What is the most accurate beginner-level explanation of switches? (variation 107)
21. When working with Computer Networks, why would a developer use routing? (variation 86)
22. When working with Computer Networks, why would a developer use routing? (variation 106)
23. Which option is a correct use case for latency in Computer Networks? (variation 358)
24. Which option is a correct use case for latency in Computer Networks? (variation 108)
25. Which option is a correct use case for UDP in Computer Networks? (variation 93)
26. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
27. Which option is a correct use case for latency in Computer Networks? (variation 98)
28. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
29. Which option is a correct use case for UDP in Computer Networks? (variation 103)
30. Which statement best describes IP addresses in Computer Networks? (variation 80)
31. Which statement best describes HTTP in Computer Networks? (variation 85)
32. When working with Computer Networks, why would a developer use routing? (variation 356)
33. When working with Computer Networks, why would a developer use subnets? (variation 81)
34. When working with Computer Networks, why would a developer use routing? (variation 96)
35. Which statement best describes IP addresses in Computer Networks? (variation 100)
36. Which option is a correct use case for latency in Computer Networks?

37. When working with Computer Networks, why would a developer use subnets? (variation 71)
38. Which statement best describes HTTP in Computer Networks? (variation 355)
39. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
40. Which statement best describes IP addresses in Computer Networks?
41. Which statement best describes HTTP in Computer Networks? (variation 75)
42. When working with Computer Networks, why would a developer use subnets? (variation 101)
43. What is the most accurate beginner-level explanation of TCP? (variation 72)
44. Which statement best describes HTTP in Computer Networks?
45. A student says 'ports' is not relevant to real projects. What is the best correction?
46. Which statement best describes HTTP in Computer Networks? (variation 95)
47. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
48. Which statement best describes IP addresses in Computer Networks? (variation 350)
49. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
50. What is the most accurate beginner-level explanation of switches? (variation 357)
51. What is the most accurate beginner-level explanation of TCP? (variation 352)
52. When working with Computer Networks, why would a developer use routing?
53. Which statement best describes IP addresses in Computer Networks? (variation 70)
54. Which option is a correct use case for UDP in Computer Networks? (variation 83)
55. Which option is a correct use case for UDP in Computer Networks?

56. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

57. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

58. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

59. Which option is a correct use case for UDP in Computer Networks? (variation 353)

60. What is the most accurate beginner-level explanation of switches? (variation 87)
