

CBSE Previous Year Practice 2024 (2024)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of TCP?
2. When working with Computer Networks, why would a developer use routing? (variation 356)
3. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
4. Which option is a correct use case for latency in Computer Networks? (variation 78)
5. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
6. When working with Computer Networks, why would a developer use routing? (variation 96)
7. Which statement best describes HTTP in Computer Networks?
8. Which statement best describes IP addresses in Computer Networks? (variation 90)
9. Which option is a correct use case for UDP in Computer Networks?
10. Which option is a correct use case for UDP in Computer Networks? (variation 103)
11. What is the most accurate beginner-level explanation of switches? (variation 357)
12. Which statement best describes IP addresses in Computer Networks? (variation 70)
13. When working with Computer Networks, why would a developer use subnets? (variation 101)
14. What is the most accurate beginner-level explanation of TCP? (variation 82)
15. Which statement best describes IP addresses in Computer Networks? (variation 100)
16. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
17. What is the most accurate beginner-level explanation of switches? (variation 97)

18. What is the most accurate beginner-level explanation of TCP? (variation 72)
19. Which option is a correct use case for UDP in Computer Networks? (variation 353)
20. Which option is a correct use case for latency in Computer Networks?
21. When working with Computer Networks, why would a developer use routing? (variation 86)
22. Which statement best describes HTTP in Computer Networks? (variation 105)
23. When working with Computer Networks, why would a developer use subnets? (variation 91)
24. What is the most accurate beginner-level explanation of TCP? (variation 92)
25. What is the most accurate beginner-level explanation of switches? (variation 87)
26. Which option is a correct use case for UDP in Computer Networks? (variation 93)
27. What is the most accurate beginner-level explanation of switches?
28. Which statement best describes IP addresses in Computer Networks? (variation 80)
29. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
30. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
31. Which option is a correct use case for UDP in Computer Networks? (variation 83)
32. Which option is a correct use case for UDP in Computer Networks? (variation 73)
33. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
34. Which option is a correct use case for latency in Computer Networks? (variation 98)
35. Which statement best describes HTTP in Computer Networks? (variation 85)
36. Which statement best describes HTTP in Computer Networks? (variation 95)

37. What is the most accurate beginner-level explanation of switches? (variation 107)
38. When working with Computer Networks, why would a developer use routing? (variation 106)
39. Which option is a correct use case for latency in Computer Networks? (variation 88)
40. When working with Computer Networks, why would a developer use routing?
41. When working with Computer Networks, why would a developer use subnets? (variation 81)
42. Which statement best describes IP addresses in Computer Networks? (variation 350)
43. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
44. A student says 'DNS' is not relevant to real projects. What is the best correction?
45. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
46. A student says 'ports' is not relevant to real projects. What is the best correction?
47. What is the most accurate beginner-level explanation of switches? (variation 77)
48. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
49. Which statement best describes HTTP in Computer Networks? (variation 355)
50. Which statement best describes IP addresses in Computer Networks?
51. Which option is a correct use case for latency in Computer Networks? (variation 108)
52. Which statement best describes HTTP in Computer Networks? (variation 75)
53. When working with Computer Networks, why would a developer use subnets? (variation 351)
54. When working with Computer Networks, why would a developer use routing? (variation 76)
55. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

56. When working with Computer Networks, why would a developer use subnets? (variation 71)

57. When working with Computer Networks, why would a developer use subnets?

58. Which option is a correct use case for latency in Computer Networks? (variation 358)

59. What is the most accurate beginner-level explanation of TCP? (variation 352)

60. What is the most accurate beginner-level explanation of TCP? (variation 102)
