

CBSE Previous Year Practice 2025 (2025)

Subject: General | Topic: Computer Networks

1. Which statement best describes HTTP in Computer Networks? (variation 355)
2. What is the most accurate beginner-level explanation of TCP?
3. Which statement best describes HTTP in Computer Networks?
4. A student says 'ports' is not relevant to real projects. What is the best correction?
5. What is the most accurate beginner-level explanation of TCP? (variation 352)
6. Which option is a correct use case for latency in Computer Networks? (variation 78)
7. Which statement best describes HTTP in Computer Networks? (variation 105)
8. Which option is a correct use case for UDP in Computer Networks? (variation 353)
9. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
10. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
11. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
12. Which option is a correct use case for UDP in Computer Networks? (variation 83)
13. When working with Computer Networks, why would a developer use routing? (variation 96)
14. What is the most accurate beginner-level explanation of switches? (variation 97)
15. Which statement best describes IP addresses in Computer Networks? (variation 100)
16. Which statement best describes IP addresses in Computer Networks? (variation 90)
17. Which option is a correct use case for latency in Computer Networks? (variation 358)

18. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
19. When working with Computer Networks, why would a developer use routing? (variation 106)
20. A student says 'DNS' is not relevant to real projects. What is the best correction?
21. When working with Computer Networks, why would a developer use routing?
22. When working with Computer Networks, why would a developer use routing? (variation 356)
23. Which statement best describes IP addresses in Computer Networks? (variation 350)
24. When working with Computer Networks, why would a developer use subnets? (variation 101)
25. Which option is a correct use case for latency in Computer Networks? (variation 98)
26. What is the most accurate beginner-level explanation of switches? (variation 107)
27. When working with Computer Networks, why would a developer use subnets? (variation 351)
28. When working with Computer Networks, why would a developer use routing? (variation 86)
29. What is the most accurate beginner-level explanation of switches? (variation 77)
30. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
31. When working with Computer Networks, why would a developer use subnets? (variation 81)
32. Which statement best describes IP addresses in Computer Networks? (variation 70)
33. Which option is a correct use case for UDP in Computer Networks? (variation 93)
34. What is the most accurate beginner-level explanation of switches? (variation 87)
35. Which option is a correct use case for latency in Computer Networks? (variation 108)
36. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)

37. Which statement best describes IP addresses in Computer Networks?
38. Which option is a correct use case for UDP in Computer Networks?
39. When working with Computer Networks, why would a developer use subnets? (variation 91)
40. Which statement best describes IP addresses in Computer Networks? (variation 80)
41. When working with Computer Networks, why would a developer use subnets?
42. Which option is a correct use case for latency in Computer Networks? (variation 88)
43. Which statement best describes HTTP in Computer Networks? (variation 75)
44. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
45. What is the most accurate beginner-level explanation of TCP? (variation 92)
46. What is the most accurate beginner-level explanation of switches? (variation 357)
47. Which option is a correct use case for latency in Computer Networks?
48. Which statement best describes HTTP in Computer Networks? (variation 85)
49. Which option is a correct use case for UDP in Computer Networks? (variation 103)
50. Which option is a correct use case for UDP in Computer Networks? (variation 73)
51. What is the most accurate beginner-level explanation of TCP? (variation 72)
52. Which statement best describes HTTP in Computer Networks? (variation 95)
53. What is the most accurate beginner-level explanation of TCP? (variation 102)
54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
55. What is the most accurate beginner-level explanation of TCP? (variation 82)

56. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

57. When working with Computer Networks, why would a developer use subnets? (variation 71)

58. When working with Computer Networks, why would a developer use routing? (variation 76)

59. What is the most accurate beginner-level explanation of switches?

60. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
