

CBSE Previous Year Practice 2026 (2026)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for latency in Computer Networks? (variation 358)
2. When working with Computer Networks, why would a developer use routing? (variation 96)
3. Which statement best describes IP addresses in Computer Networks? (variation 350)
4. When working with Computer Networks, why would a developer use subnets? (variation 81)
5. Which statement best describes IP addresses in Computer Networks?
6. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
7. Which option is a correct use case for latency in Computer Networks? (variation 108)
8. Which option is a correct use case for UDP in Computer Networks? (variation 353)
9. What is the most accurate beginner-level explanation of TCP? (variation 352)
10. Which option is a correct use case for UDP in Computer Networks? (variation 73)
11. When working with Computer Networks, why would a developer use subnets? (variation 91)
12. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
13. Which statement best describes HTTP in Computer Networks?
14. Which option is a correct use case for latency in Computer Networks? (variation 78)
15. What is the most accurate beginner-level explanation of switches? (variation 77)
16. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
17. Which statement best describes HTTP in Computer Networks? (variation 355)

18. When working with Computer Networks, why would a developer use subnets? (variation 101)
19. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
20. When working with Computer Networks, why would a developer use subnets? (variation 351)
21. A student says 'ports' is not relevant to real projects. What is the best correction?
22. When working with Computer Networks, why would a developer use routing? (variation 356)
23. What is the most accurate beginner-level explanation of TCP? (variation 82)
24. What is the most accurate beginner-level explanation of switches? (variation 87)
25. Which option is a correct use case for latency in Computer Networks? (variation 88)
26. What is the most accurate beginner-level explanation of TCP? (variation 72)
27. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
28. Which option is a correct use case for latency in Computer Networks?
29. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
30. When working with Computer Networks, why would a developer use subnets?
31. What is the most accurate beginner-level explanation of TCP?
32. Which statement best describes HTTP in Computer Networks? (variation 85)
33. When working with Computer Networks, why would a developer use routing?
34. When working with Computer Networks, why would a developer use routing? (variation 86)
35. Which option is a correct use case for latency in Computer Networks? (variation 98)
36. A student says 'DNS' is not relevant to real projects. What is the best correction?

37. Which statement best describes HTTP in Computer Networks? (variation 75)
38. What is the most accurate beginner-level explanation of switches? (variation 357)
39. When working with Computer Networks, why would a developer use subnets? (variation 71)
40. What is the most accurate beginner-level explanation of switches?
41. What is the most accurate beginner-level explanation of TCP? (variation 102)
42. Which option is a correct use case for UDP in Computer Networks? (variation 93)
43. Which option is a correct use case for UDP in Computer Networks? (variation 103)
44. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
45. Which option is a correct use case for UDP in Computer Networks?
46. Which option is a correct use case for UDP in Computer Networks? (variation 83)
47. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
48. What is the most accurate beginner-level explanation of switches? (variation 107)
49. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
50. What is the most accurate beginner-level explanation of TCP? (variation 92)
51. Which statement best describes IP addresses in Computer Networks? (variation 100)
52. Which statement best describes HTTP in Computer Networks? (variation 105)
53. Which statement best describes HTTP in Computer Networks? (variation 95)
54. When working with Computer Networks, why would a developer use routing? (variation 76)
55. Which statement best describes IP addresses in Computer Networks? (variation 80)

56. When working with Computer Networks, why would a developer use routing? (variation 106)

57. Which statement best describes IP addresses in Computer Networks? (variation 70)

58. What is the most accurate beginner-level explanation of switches? (variation 97)

59. Which statement best describes IP addresses in Computer Networks? (variation 90)

60. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
