

ICSE Previous Year Practice 2017 (2017)

Subject: General | Topic: Computer Networks

1. Which statement best describes IP addresses in Computer Networks?
2. When working with Computer Networks, why would a developer use routing? (variation 76)
3. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
4. When working with Computer Networks, why would a developer use routing?
5. Which statement best describes IP addresses in Computer Networks? (variation 350)
6. What is the most accurate beginner-level explanation of TCP? (variation 352)
7. Which statement best describes HTTP in Computer Networks? (variation 85)
8. Which statement best describes HTTP in Computer Networks? (variation 355)
9. Which statement best describes IP addresses in Computer Networks? (variation 90)
10. Which statement best describes HTTP in Computer Networks?
11. What is the most accurate beginner-level explanation of switches? (variation 97)
12. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
13. When working with Computer Networks, why would a developer use subnets? (variation 91)
14. When working with Computer Networks, why would a developer use subnets? (variation 71)
15. What is the most accurate beginner-level explanation of switches?
16. When working with Computer Networks, why would a developer use routing? (variation 106)
17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)

18. Which option is a correct use case for latency in Computer Networks? (variation 78)
19. Which option is a correct use case for UDP in Computer Networks?
20. What is the most accurate beginner-level explanation of TCP?
21. Which statement best describes HTTP in Computer Networks? (variation 95)
22. When working with Computer Networks, why would a developer use routing? (variation 96)
23. Which statement best describes HTTP in Computer Networks? (variation 105)
24. Which option is a correct use case for UDP in Computer Networks? (variation 73)
25. Which option is a correct use case for latency in Computer Networks? (variation 108)
26. Which option is a correct use case for UDP in Computer Networks? (variation 93)
27. When working with Computer Networks, why would a developer use subnets? (variation 81)
28. When working with Computer Networks, why would a developer use subnets?
29. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
30. When working with Computer Networks, why would a developer use routing? (variation 86)
31. What is the most accurate beginner-level explanation of TCP? (variation 72)
32. Which statement best describes IP addresses in Computer Networks? (variation 100)
33. A student says 'DNS' is not relevant to real projects. What is the best correction?
34. Which option is a correct use case for latency in Computer Networks?
35. Which option is a correct use case for latency in Computer Networks? (variation 358)
36. What is the most accurate beginner-level explanation of TCP? (variation 102)

37. What is the most accurate beginner-level explanation of TCP? (variation 92)
38. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
39. Which option is a correct use case for latency in Computer Networks? (variation 98)
40. Which option is a correct use case for latency in Computer Networks? (variation 88)
41. What is the most accurate beginner-level explanation of TCP? (variation 82)
42. Which option is a correct use case for UDP in Computer Networks? (variation 353)
43. Which statement best describes IP addresses in Computer Networks? (variation 70)
44. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
45. What is the most accurate beginner-level explanation of switches? (variation 87)
46. When working with Computer Networks, why would a developer use routing? (variation 356)
47. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
48. When working with Computer Networks, why would a developer use subnets? (variation 101)
49. Which statement best describes HTTP in Computer Networks? (variation 75)
50. When working with Computer Networks, why would a developer use subnets? (variation 351)
51. What is the most accurate beginner-level explanation of switches? (variation 77)
52. Which statement best describes IP addresses in Computer Networks? (variation 80)
53. A student says 'ports' is not relevant to real projects. What is the best correction?
54. What is the most accurate beginner-level explanation of switches? (variation 107)
55. What is the most accurate beginner-level explanation of switches? (variation 357)

56. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
57. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
58. Which option is a correct use case for UDP in Computer Networks? (variation 103)
59. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
60. Which option is a correct use case for UDP in Computer Networks? (variation 83)
