

ICSE Previous Year Practice 2019 (2019)

Subject: General | Topic: Computer Networks

1. When working with Computer Networks, why would a developer use subnets? (variation 351)
2. Which statement best describes HTTP in Computer Networks? (variation 85)
3. What is the most accurate beginner-level explanation of TCP? (variation 82)
4. What is the most accurate beginner-level explanation of switches? (variation 357)
5. Which option is a correct use case for UDP in Computer Networks?
6. Which option is a correct use case for latency in Computer Networks? (variation 88)
7. What is the most accurate beginner-level explanation of TCP?
8. Which statement best describes HTTP in Computer Networks? (variation 355)
9. What is the most accurate beginner-level explanation of switches?
10. Which statement best describes IP addresses in Computer Networks? (variation 90)
11. Which option is a correct use case for latency in Computer Networks? (variation 358)
12. When working with Computer Networks, why would a developer use subnets?
13. Which statement best describes IP addresses in Computer Networks?
14. When working with Computer Networks, why would a developer use routing? (variation 106)
15. What is the most accurate beginner-level explanation of TCP? (variation 352)
16. When working with Computer Networks, why would a developer use routing? (variation 356)
17. A student says 'DNS' is not relevant to real projects. What is the best correction?

18. Which option is a correct use case for UDP in Computer Networks? (variation 103)
19. When working with Computer Networks, why would a developer use subnets? (variation 81)
20. When working with Computer Networks, why would a developer use subnets? (variation 71)
21. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
22. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
23. Which option is a correct use case for latency in Computer Networks? (variation 98)
24. Which statement best describes IP addresses in Computer Networks? (variation 350)
25. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
26. What is the most accurate beginner-level explanation of TCP? (variation 92)
27. Which option is a correct use case for UDP in Computer Networks? (variation 93)
28. Which option is a correct use case for UDP in Computer Networks? (variation 73)
29. What is the most accurate beginner-level explanation of switches? (variation 107)
30. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
31. Which statement best describes IP addresses in Computer Networks? (variation 100)
32. When working with Computer Networks, why would a developer use routing? (variation 86)
33. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
34. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
35. When working with Computer Networks, why would a developer use routing? (variation 76)
36. Which statement best describes HTTP in Computer Networks? (variation 105)

37. What is the most accurate beginner-level explanation of switches? (variation 77)
38. Which option is a correct use case for UDP in Computer Networks? (variation 353)
39. Which statement best describes HTTP in Computer Networks? (variation 95)
40. When working with Computer Networks, why would a developer use subnets? (variation 101)
41. A student says 'ports' is not relevant to real projects. What is the best correction?
42. Which option is a correct use case for latency in Computer Networks?
43. When working with Computer Networks, why would a developer use routing? (variation 96)
44. What is the most accurate beginner-level explanation of TCP? (variation 102)
45. Which option is a correct use case for UDP in Computer Networks? (variation 83)
46. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
47. Which statement best describes HTTP in Computer Networks?
48. Which statement best describes IP addresses in Computer Networks? (variation 70)
49. Which option is a correct use case for latency in Computer Networks? (variation 78)
50. Which option is a correct use case for latency in Computer Networks? (variation 108)
51. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
52. When working with Computer Networks, why would a developer use routing?
53. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
54. What is the most accurate beginner-level explanation of switches? (variation 87)
55. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

56. What is the most accurate beginner-level explanation of TCP? (variation 72)
57. What is the most accurate beginner-level explanation of switches? (variation 97)
58. When working with Computer Networks, why would a developer use subnets? (variation 91)
59. Which statement best describes IP addresses in Computer Networks? (variation 80)
60. Which statement best describes HTTP in Computer Networks? (variation 75)
