

ICSE Previous Year Practice 2020 (2020)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for UDP in Computer Networks? (variation 73)
2. Which option is a correct use case for UDP in Computer Networks? (variation 353)
3. What is the most accurate beginner-level explanation of switches? (variation 87)
4. Which option is a correct use case for latency in Computer Networks? (variation 98)
5. What is the most accurate beginner-level explanation of switches? (variation 77)
6. Which statement best describes HTTP in Computer Networks?
7. When working with Computer Networks, why would a developer use routing? (variation 76)
8. Which statement best describes HTTP in Computer Networks? (variation 75)
9. Which option is a correct use case for latency in Computer Networks? (variation 108)
10. Which option is a correct use case for latency in Computer Networks? (variation 78)
11. What is the most accurate beginner-level explanation of TCP? (variation 92)
12. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
13. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
14. Which statement best describes HTTP in Computer Networks? (variation 355)
15. Which statement best describes IP addresses in Computer Networks? (variation 350)
16. When working with Computer Networks, why would a developer use routing?
17. When working with Computer Networks, why would a developer use routing? (variation 356)

18. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
19. When working with Computer Networks, why would a developer use subnets?
20. Which statement best describes HTTP in Computer Networks? (variation 85)
21. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
22. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
23. When working with Computer Networks, why would a developer use subnets? (variation 81)
24. When working with Computer Networks, why would a developer use subnets? (variation 71)
25. Which option is a correct use case for latency in Computer Networks? (variation 88)
26. When working with Computer Networks, why would a developer use subnets? (variation 351)
27. What is the most accurate beginner-level explanation of TCP? (variation 72)
28. When working with Computer Networks, why would a developer use routing? (variation 86)
29. Which statement best describes IP addresses in Computer Networks? (variation 100)
30. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
31. What is the most accurate beginner-level explanation of switches? (variation 107)
32. Which option is a correct use case for UDP in Computer Networks? (variation 83)
33. What is the most accurate beginner-level explanation of switches?
34. A student says 'ports' is not relevant to real projects. What is the best correction?
35. When working with Computer Networks, why would a developer use subnets? (variation 101)
36. What is the most accurate beginner-level explanation of TCP? (variation 82)

37. When working with Computer Networks, why would a developer use routing? (variation 96)
38. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
39. Which option is a correct use case for latency in Computer Networks?
40. Which statement best describes HTTP in Computer Networks? (variation 95)
41. What is the most accurate beginner-level explanation of switches? (variation 357)
42. Which statement best describes IP addresses in Computer Networks? (variation 80)
43. What is the most accurate beginner-level explanation of TCP? (variation 102)
44. When working with Computer Networks, why would a developer use routing? (variation 106)
45. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
46. Which option is a correct use case for UDP in Computer Networks?
47. What is the most accurate beginner-level explanation of switches? (variation 97)
48. What is the most accurate beginner-level explanation of TCP? (variation 352)
49. Which statement best describes HTTP in Computer Networks? (variation 105)
50. Which option is a correct use case for UDP in Computer Networks? (variation 103)
51. When working with Computer Networks, why would a developer use subnets? (variation 91)
52. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
53. Which option is a correct use case for latency in Computer Networks? (variation 358)
54. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
55. What is the most accurate beginner-level explanation of TCP?

56. A student says 'DNS' is not relevant to real projects. What is the best correction?

57. Which statement best describes IP addresses in Computer Networks? (variation 90)

58. Which statement best describes IP addresses in Computer Networks? (variation 70)

59. Which statement best describes IP addresses in Computer Networks?

60. Which option is a correct use case for UDP in Computer Networks? (variation 93)
