

# ICSE Previous Year Practice 2024 (2024)

Subject: General | Topic: Computer Networks

1. When working with Computer Networks, why would a developer use subnets?
2. What is the most accurate beginner-level explanation of switches? (variation 87)
3. Which option is a correct use case for UDP in Computer Networks? (variation 73)
4. Which option is a correct use case for UDP in Computer Networks? (variation 353)
5. When working with Computer Networks, why would a developer use routing? (variation 96)
6. Which statement best describes HTTP in Computer Networks? (variation 355)
7. When working with Computer Networks, why would a developer use subnets? (variation 351)
8. Which option is a correct use case for latency in Computer Networks? (variation 358)
9. What is the most accurate beginner-level explanation of TCP? (variation 102)
10. Which option is a correct use case for latency in Computer Networks? (variation 98)
11. What is the most accurate beginner-level explanation of switches? (variation 357)
12. Which statement best describes HTTP in Computer Networks? (variation 95)
13. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
14. Which statement best describes IP addresses in Computer Networks? (variation 70)
15. Which statement best describes HTTP in Computer Networks?
16. What is the most accurate beginner-level explanation of TCP? (variation 72)
17. Which statement best describes IP addresses in Computer Networks? (variation 90)

18. When working with Computer Networks, why would a developer use subnets? (variation 101)
19. When working with Computer Networks, why would a developer use subnets? (variation 71)
20. When working with Computer Networks, why would a developer use routing? (variation 356)
21. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
22. Which statement best describes HTTP in Computer Networks? (variation 85)
23. Which option is a correct use case for latency in Computer Networks? (variation 88)
24. What is the most accurate beginner-level explanation of TCP? (variation 82)
25. Which statement best describes IP addresses in Computer Networks? (variation 80)
26. A student says 'ports' is not relevant to real projects. What is the best correction?
27. Which option is a correct use case for latency in Computer Networks?
28. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
29. What is the most accurate beginner-level explanation of TCP? (variation 352)
30. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
31. A student says 'DNS' is not relevant to real projects. What is the best correction?
32. When working with Computer Networks, why would a developer use routing?
33. Which option is a correct use case for UDP in Computer Networks? (variation 103)
34. What is the most accurate beginner-level explanation of switches? (variation 77)
35. Which statement best describes IP addresses in Computer Networks? (variation 100)
36. Which option is a correct use case for UDP in Computer Networks?

37. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
38. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
39. Which option is a correct use case for latency in Computer Networks? (variation 78)
40. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
41. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
42. Which statement best describes HTTP in Computer Networks? (variation 75)
43. When working with Computer Networks, why would a developer use subnets? (variation 81)
44. Which option is a correct use case for UDP in Computer Networks? (variation 93)
45. Which statement best describes IP addresses in Computer Networks?
46. Which option is a correct use case for UDP in Computer Networks? (variation 83)
47. What is the most accurate beginner-level explanation of switches? (variation 97)
48. What is the most accurate beginner-level explanation of TCP? (variation 92)
49. When working with Computer Networks, why would a developer use routing? (variation 76)
50. Which option is a correct use case for latency in Computer Networks? (variation 108)
51. What is the most accurate beginner-level explanation of switches? (variation 107)
52. Which statement best describes IP addresses in Computer Networks? (variation 350)
53. Which statement best describes HTTP in Computer Networks? (variation 105)
54. What is the most accurate beginner-level explanation of TCP?
55. What is the most accurate beginner-level explanation of switches?

56. When working with Computer Networks, why would a developer use routing? (variation 86)

57. When working with Computer Networks, why would a developer use subnets? (variation 91)

58. When working with Computer Networks, why would a developer use routing? (variation 106)

59. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

60. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
