

State Board Previous Year Practice 2017 (2017)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for latency in Computer Networks? (variation 78)
2. Which option is a correct use case for UDP in Computer Networks? (variation 93)
3. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
4. When working with Computer Networks, why would a developer use routing? (variation 356)
5. A student says 'DNS' is not relevant to real projects. What is the best correction?
6. Which statement best describes IP addresses in Computer Networks? (variation 80)
7. Which option is a correct use case for latency in Computer Networks? (variation 98)
8. Which option is a correct use case for latency in Computer Networks? (variation 88)
9. When working with Computer Networks, why would a developer use routing?
10. What is the most accurate beginner-level explanation of TCP? (variation 352)
11. Which option is a correct use case for latency in Computer Networks?
12. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
13. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
14. Which statement best describes IP addresses in Computer Networks? (variation 70)
15. When working with Computer Networks, why would a developer use subnets? (variation 81)
16. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
17. Which statement best describes IP addresses in Computer Networks? (variation 350)

18. When working with Computer Networks, why would a developer use subnets? (variation 71)
19. When working with Computer Networks, why would a developer use routing? (variation 86)
20. Which option is a correct use case for UDP in Computer Networks? (variation 103)
21. What is the most accurate beginner-level explanation of switches? (variation 97)
22. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
23. What is the most accurate beginner-level explanation of TCP? (variation 72)
24. What is the most accurate beginner-level explanation of switches? (variation 87)
25. When working with Computer Networks, why would a developer use routing? (variation 96)
26. Which option is a correct use case for UDP in Computer Networks? (variation 83)
27. Which statement best describes HTTP in Computer Networks? (variation 95)
28. Which statement best describes IP addresses in Computer Networks? (variation 100)
29. Which option is a correct use case for latency in Computer Networks? (variation 358)
30. What is the most accurate beginner-level explanation of switches?
31. Which statement best describes HTTP in Computer Networks? (variation 85)
32. When working with Computer Networks, why would a developer use routing? (variation 76)
33. A student says 'ports' is not relevant to real projects. What is the best correction?
34. When working with Computer Networks, why would a developer use subnets?
35. Which statement best describes IP addresses in Computer Networks? (variation 90)
36. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

37. Which statement best describes HTTP in Computer Networks? (variation 75)
38. What is the most accurate beginner-level explanation of TCP? (variation 92)
39. Which option is a correct use case for latency in Computer Networks? (variation 108)
40. Which option is a correct use case for UDP in Computer Networks? (variation 73)
41. Which statement best describes HTTP in Computer Networks?
42. What is the most accurate beginner-level explanation of TCP? (variation 82)
43. What is the most accurate beginner-level explanation of switches? (variation 77)
44. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
45. When working with Computer Networks, why would a developer use subnets? (variation 101)
46. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
47. Which option is a correct use case for UDP in Computer Networks?
48. What is the most accurate beginner-level explanation of switches? (variation 357)
49. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
50. Which statement best describes HTTP in Computer Networks? (variation 355)
51. When working with Computer Networks, why would a developer use routing? (variation 106)
52. Which statement best describes IP addresses in Computer Networks?
53. What is the most accurate beginner-level explanation of TCP? (variation 102)
54. What is the most accurate beginner-level explanation of TCP?
55. When working with Computer Networks, why would a developer use subnets? (variation 351)

56. Which statement best describes HTTP in Computer Networks? (variation 105)
57. What is the most accurate beginner-level explanation of switches? (variation 107)
58. When working with Computer Networks, why would a developer use subnets? (variation 91)
59. Which option is a correct use case for UDP in Computer Networks? (variation 353)
60. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
