

State Board Previous Year Practice 2024 (2024)

Subject: General | Topic: Computer Networks

1. Which statement best describes HTTP in Computer Networks? (variation 75)
2. Which option is a correct use case for UDP in Computer Networks? (variation 73)
3. When working with Computer Networks, why would a developer use subnets? (variation 101)
4. What is the most accurate beginner-level explanation of TCP?
5. Which statement best describes HTTP in Computer Networks? (variation 95)
6. Which statement best describes HTTP in Computer Networks? (variation 355)
7. Which statement best describes IP addresses in Computer Networks? (variation 80)
8. Which option is a correct use case for UDP in Computer Networks? (variation 353)
9. Which option is a correct use case for UDP in Computer Networks?
10. What is the most accurate beginner-level explanation of TCP? (variation 82)
11. Which option is a correct use case for latency in Computer Networks? (variation 108)
12. What is the most accurate beginner-level explanation of TCP? (variation 352)
13. What is the most accurate beginner-level explanation of TCP? (variation 102)
14. Which option is a correct use case for latency in Computer Networks?
15. Which statement best describes IP addresses in Computer Networks? (variation 70)
16. Which option is a correct use case for latency in Computer Networks? (variation 98)
17. Which statement best describes HTTP in Computer Networks? (variation 105)

18. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
19. When working with Computer Networks, why would a developer use subnets? (variation 91)
20. When working with Computer Networks, why would a developer use subnets?
21. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
22. Which option is a correct use case for UDP in Computer Networks? (variation 103)
23. When working with Computer Networks, why would a developer use subnets? (variation 81)
24. What is the most accurate beginner-level explanation of TCP? (variation 92)
25. A student says 'DNS' is not relevant to real projects. What is the best correction?
26. Which option is a correct use case for latency in Computer Networks? (variation 78)
27. A student says 'ports' is not relevant to real projects. What is the best correction?
28. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
29. What is the most accurate beginner-level explanation of switches? (variation 77)
30. What is the most accurate beginner-level explanation of switches? (variation 87)
31. When working with Computer Networks, why would a developer use subnets? (variation 351)
32. What is the most accurate beginner-level explanation of switches? (variation 97)
33. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
34. Which statement best describes IP addresses in Computer Networks?
35. Which statement best describes IP addresses in Computer Networks? (variation 100)
36. Which option is a correct use case for latency in Computer Networks? (variation 88)

37. What is the most accurate beginner-level explanation of switches? (variation 107)
38. Which option is a correct use case for UDP in Computer Networks? (variation 93)
39. When working with Computer Networks, why would a developer use routing? (variation 106)
40. What is the most accurate beginner-level explanation of switches? (variation 357)
41. Which option is a correct use case for latency in Computer Networks? (variation 358)
42. When working with Computer Networks, why would a developer use subnets? (variation 71)
43. When working with Computer Networks, why would a developer use routing? (variation 76)
44. What is the most accurate beginner-level explanation of switches?
45. Which statement best describes HTTP in Computer Networks?
46. What is the most accurate beginner-level explanation of TCP? (variation 72)
47. Which statement best describes IP addresses in Computer Networks? (variation 350)
48. Which statement best describes HTTP in Computer Networks? (variation 85)
49. Which option is a correct use case for UDP in Computer Networks? (variation 83)
50. When working with Computer Networks, why would a developer use routing? (variation 96)
51. When working with Computer Networks, why would a developer use routing? (variation 356)
52. Which statement best describes IP addresses in Computer Networks? (variation 90)
53. When working with Computer Networks, why would a developer use routing? (variation 86)
54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
55. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

56. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

57. When working with Computer Networks, why would a developer use routing?

58. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

59. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)

60. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
