

State Board Previous Year Practice 2026 (2026)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of TCP? (variation 92)
2. Which statement best describes IP addresses in Computer Networks?
3. Which statement best describes IP addresses in Computer Networks? (variation 350)
4. Which statement best describes HTTP in Computer Networks? (variation 95)
5. Which option is a correct use case for latency in Computer Networks? (variation 98)
6. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
7. Which option is a correct use case for latency in Computer Networks? (variation 88)
8. When working with Computer Networks, why would a developer use subnets? (variation 351)
9. When working with Computer Networks, why would a developer use routing? (variation 356)
10. When working with Computer Networks, why would a developer use routing? (variation 76)
11. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
12. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
13. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
14. Which statement best describes IP addresses in Computer Networks? (variation 80)
15. Which statement best describes HTTP in Computer Networks? (variation 85)
16. What is the most accurate beginner-level explanation of switches? (variation 87)
17. What is the most accurate beginner-level explanation of TCP? (variation 352)

18. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
19. Which statement best describes HTTP in Computer Networks? (variation 105)
20. Which option is a correct use case for UDP in Computer Networks? (variation 103)
21. What is the most accurate beginner-level explanation of TCP? (variation 102)
22. What is the most accurate beginner-level explanation of switches? (variation 97)
23. Which option is a correct use case for latency in Computer Networks?
24. Which statement best describes HTTP in Computer Networks?
25. What is the most accurate beginner-level explanation of TCP? (variation 72)
26. A student says 'DNS' is not relevant to real projects. What is the best correction?
27. Which option is a correct use case for latency in Computer Networks? (variation 108)
28. What is the most accurate beginner-level explanation of switches?
29. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
30. When working with Computer Networks, why would a developer use subnets?
31. What is the most accurate beginner-level explanation of switches? (variation 357)
32. What is the most accurate beginner-level explanation of switches? (variation 77)
33. Which statement best describes IP addresses in Computer Networks? (variation 100)
34. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
35. Which option is a correct use case for UDP in Computer Networks? (variation 353)
36. Which option is a correct use case for UDP in Computer Networks? (variation 83)

37. What is the most accurate beginner-level explanation of TCP? (variation 82)
38. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
39. When working with Computer Networks, why would a developer use routing? (variation 86)
40. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
41. Which option is a correct use case for UDP in Computer Networks?
42. What is the most accurate beginner-level explanation of switches? (variation 107)
43. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
44. What is the most accurate beginner-level explanation of TCP?
45. Which statement best describes IP addresses in Computer Networks? (variation 70)
46. Which statement best describes HTTP in Computer Networks? (variation 75)
47. Which statement best describes HTTP in Computer Networks? (variation 355)
48. Which option is a correct use case for latency in Computer Networks? (variation 78)
49. When working with Computer Networks, why would a developer use routing?
50. When working with Computer Networks, why would a developer use routing? (variation 106)
51. When working with Computer Networks, why would a developer use subnets? (variation 81)
52. When working with Computer Networks, why would a developer use subnets? (variation 101)
53. Which option is a correct use case for UDP in Computer Networks? (variation 73)
54. A student says 'ports' is not relevant to real projects. What is the best correction?
55. Which option is a correct use case for UDP in Computer Networks? (variation 93)

56. Which statement best describes IP addresses in Computer Networks? (variation 90)

57. Which option is a correct use case for latency in Computer Networks? (variation 358)

58. When working with Computer Networks, why would a developer use subnets? (variation 71)

59. When working with Computer Networks, why would a developer use routing? (variation 96)

60. When working with Computer Networks, why would a developer use subnets? (variation 91)
