

IIT-JEE Previous Year Practice 2018 (2018)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for latency in Computer Networks? (variation 78)
2. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
3. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
4. Which option is a correct use case for latency in Computer Networks? (variation 98)
5. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
6. Which statement best describes HTTP in Computer Networks?
7. Which statement best describes IP addresses in Computer Networks? (variation 100)
8. Which statement best describes IP addresses in Computer Networks? (variation 350)
9. Which option is a correct use case for latency in Computer Networks?
10. Which option is a correct use case for UDP in Computer Networks? (variation 73)
11. Which option is a correct use case for UDP in Computer Networks? (variation 353)
12. When working with Computer Networks, why would a developer use routing? (variation 76)
13. What is the most accurate beginner-level explanation of TCP? (variation 72)
14. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
15. When working with Computer Networks, why would a developer use routing?
16. What is the most accurate beginner-level explanation of TCP? (variation 92)
17. When working with Computer Networks, why would a developer use routing? (variation 96)

18. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
19. When working with Computer Networks, why would a developer use routing? (variation 356)
20. A student says 'ports' is not relevant to real projects. What is the best correction?
21. When working with Computer Networks, why would a developer use subnets? (variation 91)
22. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
23. Which statement best describes IP addresses in Computer Networks? (variation 90)
24. Which option is a correct use case for latency in Computer Networks? (variation 358)
25. What is the most accurate beginner-level explanation of switches? (variation 107)
26. What is the most accurate beginner-level explanation of TCP? (variation 82)
27. Which option is a correct use case for UDP in Computer Networks? (variation 93)
28. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
29. Which statement best describes HTTP in Computer Networks? (variation 95)
30. Which option is a correct use case for latency in Computer Networks? (variation 108)
31. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
32. What is the most accurate beginner-level explanation of TCP? (variation 352)
33. Which statement best describes HTTP in Computer Networks? (variation 75)
34. Which statement best describes IP addresses in Computer Networks? (variation 70)
35. When working with Computer Networks, why would a developer use routing? (variation 86)
36. Which option is a correct use case for latency in Computer Networks? (variation 88)

37. A student says 'DNS' is not relevant to real projects. What is the best correction?
38. When working with Computer Networks, why would a developer use subnets? (variation 101)
39. Which statement best describes IP addresses in Computer Networks?
40. When working with Computer Networks, why would a developer use subnets?
41. Which statement best describes IP addresses in Computer Networks? (variation 80)
42. What is the most accurate beginner-level explanation of TCP? (variation 102)
43. Which statement best describes HTTP in Computer Networks? (variation 85)
44. What is the most accurate beginner-level explanation of switches?
45. What is the most accurate beginner-level explanation of switches? (variation 97)
46. When working with Computer Networks, why would a developer use routing? (variation 106)
47. Which statement best describes HTTP in Computer Networks? (variation 105)
48. When working with Computer Networks, why would a developer use subnets? (variation 81)
49. Which option is a correct use case for UDP in Computer Networks?
50. When working with Computer Networks, why would a developer use subnets? (variation 71)
51. Which option is a correct use case for UDP in Computer Networks? (variation 103)
52. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
53. What is the most accurate beginner-level explanation of TCP?
54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
55. When working with Computer Networks, why would a developer use subnets? (variation 351)

56. What is the most accurate beginner-level explanation of switches? (variation 87)

57. Which option is a correct use case for UDP in Computer Networks? (variation 83)

58. Which statement best describes HTTP in Computer Networks? (variation 355)

59. What is the most accurate beginner-level explanation of switches? (variation 77)

60. What is the most accurate beginner-level explanation of switches? (variation 357)
