

IIT-JEE Previous Year Practice 2020 (2020)

Subject: General | Topic: Computer Networks

1. A student says 'DNS' is not relevant to real projects. What is the best correction?
2. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
3. What is the most accurate beginner-level explanation of switches? (variation 87)
4. What is the most accurate beginner-level explanation of TCP? (variation 72)
5. Which statement best describes IP addresses in Computer Networks? (variation 90)
6. Which statement best describes HTTP in Computer Networks? (variation 95)
7. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
8. Which statement best describes IP addresses in Computer Networks? (variation 100)
9. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
10. Which option is a correct use case for UDP in Computer Networks? (variation 103)
11. Which option is a correct use case for latency in Computer Networks? (variation 78)
12. Which statement best describes IP addresses in Computer Networks? (variation 80)
13. What is the most accurate beginner-level explanation of switches? (variation 77)
14. Which statement best describes HTTP in Computer Networks?
15. What is the most accurate beginner-level explanation of TCP? (variation 92)
16. Which option is a correct use case for UDP in Computer Networks? (variation 93)
17. Which option is a correct use case for UDP in Computer Networks? (variation 353)

18. What is the most accurate beginner-level explanation of switches? (variation 97)
19. What is the most accurate beginner-level explanation of TCP? (variation 352)
20. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
21. When working with Computer Networks, why would a developer use subnets? (variation 101)
22. What is the most accurate beginner-level explanation of TCP?
23. When working with Computer Networks, why would a developer use subnets? (variation 351)
24. What is the most accurate beginner-level explanation of TCP? (variation 82)
25. What is the most accurate beginner-level explanation of switches?
26. Which option is a correct use case for latency in Computer Networks? (variation 88)
27. When working with Computer Networks, why would a developer use routing? (variation 356)
28. Which statement best describes IP addresses in Computer Networks? (variation 350)
29. Which statement best describes IP addresses in Computer Networks?
30. Which option is a correct use case for latency in Computer Networks? (variation 98)
31. Which option is a correct use case for UDP in Computer Networks? (variation 73)
32. When working with Computer Networks, why would a developer use routing? (variation 76)
33. When working with Computer Networks, why would a developer use routing? (variation 86)
34. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
35. When working with Computer Networks, why would a developer use routing?
36. When working with Computer Networks, why would a developer use subnets? (variation 71)

37. Which option is a correct use case for latency in Computer Networks? (variation 358)
38. Which statement best describes HTTP in Computer Networks? (variation 105)
39. When working with Computer Networks, why would a developer use subnets? (variation 91)
40. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
41. What is the most accurate beginner-level explanation of switches? (variation 357)
42. Which statement best describes IP addresses in Computer Networks? (variation 70)
43. Which option is a correct use case for UDP in Computer Networks? (variation 83)
44. What is the most accurate beginner-level explanation of switches? (variation 107)
45. Which statement best describes HTTP in Computer Networks? (variation 85)
46. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
47. When working with Computer Networks, why would a developer use subnets? (variation 81)
48. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
49. When working with Computer Networks, why would a developer use routing? (variation 96)
50. Which statement best describes HTTP in Computer Networks? (variation 75)
51. A student says 'ports' is not relevant to real projects. What is the best correction?
52. What is the most accurate beginner-level explanation of TCP? (variation 102)
53. When working with Computer Networks, why would a developer use subnets?
54. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
55. Which statement best describes HTTP in Computer Networks? (variation 355)

56. When working with Computer Networks, why would a developer use routing? (variation 106)

57. Which option is a correct use case for UDP in Computer Networks?

58. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

59. Which option is a correct use case for latency in Computer Networks?

60. Which option is a correct use case for latency in Computer Networks? (variation 108)
