

IIT-JEE Previous Year Practice 2023 (2023)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for latency in Computer Networks? (variation 358)
2. What is the most accurate beginner-level explanation of TCP? (variation 102)
3. What is the most accurate beginner-level explanation of TCP? (variation 352)
4. When working with Computer Networks, why would a developer use routing? (variation 76)
5. What is the most accurate beginner-level explanation of TCP? (variation 92)
6. When working with Computer Networks, why would a developer use subnets? (variation 351)
7. What is the most accurate beginner-level explanation of switches? (variation 107)
8. When working with Computer Networks, why would a developer use subnets? (variation 101)
9. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
10. When working with Computer Networks, why would a developer use routing? (variation 106)
11. Which option is a correct use case for UDP in Computer Networks? (variation 103)
12. When working with Computer Networks, why would a developer use subnets?
13. Which statement best describes HTTP in Computer Networks? (variation 95)
14. A student says 'DNS' is not relevant to real projects. What is the best correction?
15. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
16. What is the most accurate beginner-level explanation of TCP? (variation 72)
17. Which statement best describes IP addresses in Computer Networks? (variation 90)

18. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
19. Which option is a correct use case for UDP in Computer Networks? (variation 353)
20. Which statement best describes IP addresses in Computer Networks? (variation 100)
21. What is the most accurate beginner-level explanation of TCP?
22. Which option is a correct use case for UDP in Computer Networks? (variation 83)
23. Which option is a correct use case for latency in Computer Networks? (variation 98)
24. When working with Computer Networks, why would a developer use routing? (variation 96)
25. Which statement best describes IP addresses in Computer Networks? (variation 350)
26. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
27. When working with Computer Networks, why would a developer use routing? (variation 356)
28. Which statement best describes HTTP in Computer Networks? (variation 355)
29. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
30. Which option is a correct use case for UDP in Computer Networks? (variation 73)
31. Which statement best describes IP addresses in Computer Networks? (variation 80)
32. When working with Computer Networks, why would a developer use subnets? (variation 71)
33. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
34. Which statement best describes HTTP in Computer Networks? (variation 75)
35. When working with Computer Networks, why would a developer use routing?
36. What is the most accurate beginner-level explanation of TCP? (variation 82)

37. Which option is a correct use case for latency in Computer Networks? (variation 88)
38. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
39. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
40. When working with Computer Networks, why would a developer use subnets? (variation 81)
41. What is the most accurate beginner-level explanation of switches? (variation 357)
42. What is the most accurate beginner-level explanation of switches? (variation 77)
43. Which option is a correct use case for UDP in Computer Networks? (variation 93)
44. What is the most accurate beginner-level explanation of switches?
45. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
46. Which option is a correct use case for UDP in Computer Networks?
47. Which option is a correct use case for latency in Computer Networks? (variation 108)
48. Which statement best describes HTTP in Computer Networks?
49. What is the most accurate beginner-level explanation of switches? (variation 87)
50. Which statement best describes HTTP in Computer Networks? (variation 85)
51. Which statement best describes HTTP in Computer Networks? (variation 105)
52. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
53. Which option is a correct use case for latency in Computer Networks?
54. What is the most accurate beginner-level explanation of switches? (variation 97)
55. When working with Computer Networks, why would a developer use routing? (variation 86)

56. Which statement best describes IP addresses in Computer Networks? (variation 70)

57. Which statement best describes IP addresses in Computer Networks?

58. When working with Computer Networks, why would a developer use subnets? (variation 91)

59. A student says 'ports' is not relevant to real projects. What is the best correction?

60. Which option is a correct use case for latency in Computer Networks? (variation 78)
