

NEET Previous Year Practice 2017 (2017)

Subject: General | Topic: Computer Networks

1. Which statement best describes HTTP in Computer Networks? (variation 75)
2. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
3. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
4. Which option is a correct use case for latency in Computer Networks? (variation 78)
5. Which option is a correct use case for latency in Computer Networks? (variation 358)
6. What is the most accurate beginner-level explanation of switches? (variation 357)
7. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
8. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
9. When working with Computer Networks, why would a developer use routing? (variation 86)
10. Which statement best describes HTTP in Computer Networks?
11. Which option is a correct use case for UDP in Computer Networks? (variation 103)
12. Which option is a correct use case for UDP in Computer Networks? (variation 93)
13. Which option is a correct use case for latency in Computer Networks?
14. When working with Computer Networks, why would a developer use subnets? (variation 91)
15. Which statement best describes HTTP in Computer Networks? (variation 355)
16. Which option is a correct use case for UDP in Computer Networks? (variation 83)
17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)

18. When working with Computer Networks, why would a developer use routing? (variation 96)
19. When working with Computer Networks, why would a developer use subnets? (variation 101)
20. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
21. When working with Computer Networks, why would a developer use routing?
22. Which statement best describes IP addresses in Computer Networks? (variation 90)
23. When working with Computer Networks, why would a developer use routing? (variation 356)
24. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
25. When working with Computer Networks, why would a developer use subnets? (variation 81)
26. Which option is a correct use case for UDP in Computer Networks? (variation 73)
27. What is the most accurate beginner-level explanation of switches? (variation 87)
28. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
29. A student says 'ports' is not relevant to real projects. What is the best correction?
30. Which option is a correct use case for UDP in Computer Networks?
31. Which option is a correct use case for latency in Computer Networks? (variation 108)
32. What is the most accurate beginner-level explanation of TCP? (variation 352)
33. What is the most accurate beginner-level explanation of TCP? (variation 102)
34. Which option is a correct use case for latency in Computer Networks? (variation 98)
35. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
36. What is the most accurate beginner-level explanation of TCP? (variation 92)

37. A student says 'DNS' is not relevant to real projects. What is the best correction?
38. What is the most accurate beginner-level explanation of TCP? (variation 72)
39. When working with Computer Networks, why would a developer use subnets?
40. When working with Computer Networks, why would a developer use routing? (variation 76)
41. Which option is a correct use case for UDP in Computer Networks? (variation 353)
42. Which statement best describes IP addresses in Computer Networks? (variation 100)
43. Which statement best describes HTTP in Computer Networks? (variation 95)
44. Which option is a correct use case for latency in Computer Networks? (variation 88)
45. Which statement best describes HTTP in Computer Networks? (variation 105)
46. What is the most accurate beginner-level explanation of switches? (variation 97)
47. What is the most accurate beginner-level explanation of switches?
48. Which statement best describes IP addresses in Computer Networks? (variation 80)
49. What is the most accurate beginner-level explanation of TCP? (variation 82)
50. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
51. Which statement best describes HTTP in Computer Networks? (variation 85)
52. Which statement best describes IP addresses in Computer Networks? (variation 350)
53. When working with Computer Networks, why would a developer use routing? (variation 106)
54. What is the most accurate beginner-level explanation of switches? (variation 77)
55. What is the most accurate beginner-level explanation of switches? (variation 107)

56. When working with Computer Networks, why would a developer use subnets? (variation 351)

57. Which statement best describes IP addresses in Computer Networks?

58. When working with Computer Networks, why would a developer use subnets? (variation 71)

59. What is the most accurate beginner-level explanation of TCP?

60. Which statement best describes IP addresses in Computer Networks? (variation 70)
