

NEET Previous Year Practice 2018 (2018)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for latency in Computer Networks? (variation 88)
2. Which statement best describes HTTP in Computer Networks? (variation 75)
3. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
4. What is the most accurate beginner-level explanation of switches? (variation 357)
5. When working with Computer Networks, why would a developer use subnets? (variation 91)
6. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
7. What is the most accurate beginner-level explanation of switches? (variation 87)
8. A student says 'ports' is not relevant to real projects. What is the best correction?
9. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
10. Which option is a correct use case for UDP in Computer Networks? (variation 73)
11. When working with Computer Networks, why would a developer use routing? (variation 96)
12. Which option is a correct use case for latency in Computer Networks?
13. When working with Computer Networks, why would a developer use routing? (variation 76)
14. When working with Computer Networks, why would a developer use routing? (variation 86)
15. Which option is a correct use case for latency in Computer Networks? (variation 98)
16. Which statement best describes IP addresses in Computer Networks?
17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)

18. When working with Computer Networks, why would a developer use routing?
19. What is the most accurate beginner-level explanation of TCP? (variation 92)
20. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
21. What is the most accurate beginner-level explanation of TCP? (variation 352)
22. Which option is a correct use case for UDP in Computer Networks? (variation 83)
23. When working with Computer Networks, why would a developer use subnets? (variation 71)
24. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
25. Which statement best describes IP addresses in Computer Networks? (variation 80)
26. Which statement best describes HTTP in Computer Networks? (variation 105)
27. When working with Computer Networks, why would a developer use subnets?
28. When working with Computer Networks, why would a developer use subnets? (variation 351)
29. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
30. Which statement best describes IP addresses in Computer Networks? (variation 100)
31. Which option is a correct use case for UDP in Computer Networks? (variation 353)
32. Which statement best describes HTTP in Computer Networks? (variation 85)
33. What is the most accurate beginner-level explanation of TCP?
34. Which option is a correct use case for UDP in Computer Networks? (variation 93)
35. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
36. Which statement best describes IP addresses in Computer Networks? (variation 90)

37. Which statement best describes IP addresses in Computer Networks? (variation 70)
38. What is the most accurate beginner-level explanation of switches? (variation 77)
39. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
40. When working with Computer Networks, why would a developer use subnets? (variation 81)
41. What is the most accurate beginner-level explanation of TCP? (variation 102)
42. Which statement best describes HTTP in Computer Networks? (variation 95)
43. When working with Computer Networks, why would a developer use subnets? (variation 101)
44. Which option is a correct use case for UDP in Computer Networks? (variation 103)
45. Which option is a correct use case for latency in Computer Networks? (variation 78)
46. A student says 'DNS' is not relevant to real projects. What is the best correction?
47. Which option is a correct use case for latency in Computer Networks? (variation 108)
48. What is the most accurate beginner-level explanation of switches? (variation 107)
49. Which option is a correct use case for UDP in Computer Networks?
50. When working with Computer Networks, why would a developer use routing? (variation 356)
51. What is the most accurate beginner-level explanation of TCP? (variation 82)
52. Which option is a correct use case for latency in Computer Networks? (variation 358)
53. What is the most accurate beginner-level explanation of TCP? (variation 72)
54. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
55. Which statement best describes IP addresses in Computer Networks? (variation 350)

56. Which statement best describes HTTP in Computer Networks? (variation 355)
57. What is the most accurate beginner-level explanation of switches?
58. When working with Computer Networks, why would a developer use routing? (variation 106)
59. What is the most accurate beginner-level explanation of switches? (variation 97)
60. Which statement best describes HTTP in Computer Networks?
