

NEET Previous Year Practice 2020 (2020)

Subject: General | Topic: Computer Networks

1. A student says 'DNS' is not relevant to real projects. What is the best correction?
2. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
3. Which statement best describes HTTP in Computer Networks? (variation 75)
4. Which statement best describes IP addresses in Computer Networks?
5. Which option is a correct use case for UDP in Computer Networks? (variation 93)
6. What is the most accurate beginner-level explanation of switches? (variation 357)
7. Which option is a correct use case for UDP in Computer Networks?
8. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
9. What is the most accurate beginner-level explanation of TCP?
10. Which option is a correct use case for latency in Computer Networks? (variation 358)
11. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
12. Which statement best describes IP addresses in Computer Networks? (variation 100)
13. When working with Computer Networks, why would a developer use routing? (variation 356)
14. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
15. Which option is a correct use case for latency in Computer Networks? (variation 98)
16. What is the most accurate beginner-level explanation of TCP? (variation 82)
17. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

18. Which option is a correct use case for latency in Computer Networks? (variation 88)
19. A student says 'ports' is not relevant to real projects. What is the best correction?
20. What is the most accurate beginner-level explanation of TCP? (variation 92)
21. Which statement best describes IP addresses in Computer Networks? (variation 350)
22. When working with Computer Networks, why would a developer use routing? (variation 86)
23. Which statement best describes IP addresses in Computer Networks? (variation 80)
24. When working with Computer Networks, why would a developer use subnets?
25. When working with Computer Networks, why would a developer use routing? (variation 76)
26. What is the most accurate beginner-level explanation of switches? (variation 87)
27. What is the most accurate beginner-level explanation of switches? (variation 77)
28. When working with Computer Networks, why would a developer use routing? (variation 96)
29. Which statement best describes HTTP in Computer Networks? (variation 85)
30. When working with Computer Networks, why would a developer use subnets? (variation 81)
31. Which option is a correct use case for latency in Computer Networks? (variation 108)
32. When working with Computer Networks, why would a developer use subnets? (variation 91)
33. Which statement best describes HTTP in Computer Networks? (variation 105)
34. Which option is a correct use case for UDP in Computer Networks? (variation 103)
35. Which option is a correct use case for UDP in Computer Networks? (variation 353)
36. Which option is a correct use case for latency in Computer Networks? (variation 78)

37. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
38. What is the most accurate beginner-level explanation of switches?
39. Which option is a correct use case for UDP in Computer Networks? (variation 73)
40. Which statement best describes HTTP in Computer Networks? (variation 355)
41. When working with Computer Networks, why would a developer use routing? (variation 106)
42. Which option is a correct use case for UDP in Computer Networks? (variation 83)
43. What is the most accurate beginner-level explanation of switches? (variation 107)
44. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
45. Which statement best describes IP addresses in Computer Networks? (variation 70)
46. Which option is a correct use case for latency in Computer Networks?
47. Which statement best describes IP addresses in Computer Networks? (variation 90)
48. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
49. What is the most accurate beginner-level explanation of switches? (variation 97)
50. When working with Computer Networks, why would a developer use subnets? (variation 71)
51. Which statement best describes HTTP in Computer Networks? (variation 95)
52. When working with Computer Networks, why would a developer use routing?
53. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
54. What is the most accurate beginner-level explanation of TCP? (variation 102)
55. When working with Computer Networks, why would a developer use subnets? (variation 351)

56. Which statement best describes HTTP in Computer Networks?
57. What is the most accurate beginner-level explanation of TCP? (variation 352)
58. When working with Computer Networks, why would a developer use subnets? (variation 101)
59. What is the most accurate beginner-level explanation of TCP? (variation 72)
60. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
