

University Exams Previous Year Practice 2017 (2017)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of TCP? (variation 72)
2. Which option is a correct use case for UDP in Computer Networks? (variation 353)
3. What is the most accurate beginner-level explanation of TCP? (variation 82)
4. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
5. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
6. What is the most accurate beginner-level explanation of TCP?
7. Which statement best describes IP addresses in Computer Networks? (variation 100)
8. Which option is a correct use case for latency in Computer Networks? (variation 98)
9. When working with Computer Networks, why would a developer use routing? (variation 96)
10. When working with Computer Networks, why would a developer use subnets? (variation 351)
11. What is the most accurate beginner-level explanation of TCP? (variation 92)
12. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
13. Which option is a correct use case for latency in Computer Networks? (variation 78)
14. Which statement best describes HTTP in Computer Networks? (variation 75)
15. Which option is a correct use case for UDP in Computer Networks? (variation 83)
16. Which statement best describes IP addresses in Computer Networks?
17. Which statement best describes IP addresses in Computer Networks? (variation 80)

18. What is the most accurate beginner-level explanation of TCP? (variation 102)
19. Which option is a correct use case for UDP in Computer Networks? (variation 73)
20. Which statement best describes IP addresses in Computer Networks? (variation 70)
21. When working with Computer Networks, why would a developer use routing? (variation 76)
22. Which option is a correct use case for UDP in Computer Networks?
23. When working with Computer Networks, why would a developer use subnets?
24. A student says 'DNS' is not relevant to real projects. What is the best correction?
25. Which statement best describes HTTP in Computer Networks? (variation 85)
26. Which option is a correct use case for latency in Computer Networks? (variation 88)
27. When working with Computer Networks, why would a developer use subnets? (variation 101)
28. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
29. Which option is a correct use case for UDP in Computer Networks? (variation 103)
30. When working with Computer Networks, why would a developer use routing?
31. What is the most accurate beginner-level explanation of switches? (variation 87)
32. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
33. When working with Computer Networks, why would a developer use routing? (variation 106)
34. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
35. Which option is a correct use case for latency in Computer Networks? (variation 358)
36. Which option is a correct use case for UDP in Computer Networks? (variation 93)

37. When working with Computer Networks, why would a developer use routing? (variation 356)
38. Which statement best describes IP addresses in Computer Networks? (variation 350)
39. What is the most accurate beginner-level explanation of switches? (variation 77)
40. What is the most accurate beginner-level explanation of switches? (variation 97)
41. Which statement best describes IP addresses in Computer Networks? (variation 90)
42. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
43. When working with Computer Networks, why would a developer use routing? (variation 86)
44. Which statement best describes HTTP in Computer Networks? (variation 355)
45. A student says 'ports' is not relevant to real projects. What is the best correction?
46. Which statement best describes HTTP in Computer Networks? (variation 105)
47. What is the most accurate beginner-level explanation of switches? (variation 107)
48. What is the most accurate beginner-level explanation of TCP? (variation 352)
49. Which option is a correct use case for latency in Computer Networks?
50. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
51. What is the most accurate beginner-level explanation of switches?
52. When working with Computer Networks, why would a developer use subnets? (variation 91)
53. When working with Computer Networks, why would a developer use subnets? (variation 81)
54. Which statement best describes HTTP in Computer Networks?
55. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)

56. Which option is a correct use case for latency in Computer Networks? (variation 108)

57. What is the most accurate beginner-level explanation of switches? (variation 357)

58. Which statement best describes HTTP in Computer Networks? (variation 95)

59. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

60. When working with Computer Networks, why would a developer use subnets? (variation 71)
