

University Exams Previous Year Practice 2018 (2018)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of switches?
2. What is the most accurate beginner-level explanation of switches? (variation 357)
3. What is the most accurate beginner-level explanation of switches? (variation 107)
4. Which statement best describes HTTP in Computer Networks? (variation 355)
5. Which statement best describes HTTP in Computer Networks?
6. Which option is a correct use case for UDP in Computer Networks? (variation 83)
7. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
8. What is the most accurate beginner-level explanation of switches? (variation 77)
9. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
10. Which option is a correct use case for latency in Computer Networks? (variation 108)
11. When working with Computer Networks, why would a developer use subnets?
12. What is the most accurate beginner-level explanation of TCP? (variation 92)
13. Which statement best describes IP addresses in Computer Networks? (variation 100)
14. When working with Computer Networks, why would a developer use subnets? (variation 91)
15. Which option is a correct use case for latency in Computer Networks?
16. What is the most accurate beginner-level explanation of TCP? (variation 352)
17. Which option is a correct use case for latency in Computer Networks? (variation 358)

18. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
19. Which statement best describes IP addresses in Computer Networks? (variation 350)
20. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
21. Which option is a correct use case for latency in Computer Networks? (variation 78)
22. Which option is a correct use case for latency in Computer Networks? (variation 88)
23. What is the most accurate beginner-level explanation of switches? (variation 87)
24. Which option is a correct use case for UDP in Computer Networks? (variation 73)
25. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
26. When working with Computer Networks, why would a developer use routing? (variation 86)
27. Which option is a correct use case for latency in Computer Networks? (variation 98)
28. Which statement best describes HTTP in Computer Networks? (variation 95)
29. Which option is a correct use case for UDP in Computer Networks?
30. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
31. Which statement best describes IP addresses in Computer Networks? (variation 70)
32. Which statement best describes IP addresses in Computer Networks? (variation 80)
33. What is the most accurate beginner-level explanation of TCP? (variation 102)
34. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
35. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
36. What is the most accurate beginner-level explanation of TCP?

37. Which statement best describes IP addresses in Computer Networks?
38. When working with Computer Networks, why would a developer use routing? (variation 356)
39. Which statement best describes HTTP in Computer Networks? (variation 75)
40. A student says 'ports' is not relevant to real projects. What is the best correction?
41. What is the most accurate beginner-level explanation of TCP? (variation 72)
42. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
43. When working with Computer Networks, why would a developer use routing? (variation 76)
44. When working with Computer Networks, why would a developer use routing? (variation 96)
45. What is the most accurate beginner-level explanation of TCP? (variation 82)
46. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
47. Which option is a correct use case for UDP in Computer Networks? (variation 353)
48. What is the most accurate beginner-level explanation of switches? (variation 97)
49. When working with Computer Networks, why would a developer use subnets? (variation 351)
50. Which option is a correct use case for UDP in Computer Networks? (variation 93)
51. When working with Computer Networks, why would a developer use routing? (variation 106)
52. Which statement best describes HTTP in Computer Networks? (variation 105)
53. Which statement best describes HTTP in Computer Networks? (variation 85)
54. A student says 'DNS' is not relevant to real projects. What is the best correction?
55. When working with Computer Networks, why would a developer use subnets? (variation 71)

56. When working with Computer Networks, why would a developer use routing?

57. Which option is a correct use case for UDP in Computer Networks? (variation 103)

58. When working with Computer Networks, why would a developer use subnets? (variation 81)

59. When working with Computer Networks, why would a developer use subnets? (variation 101)

60. Which statement best describes IP addresses in Computer Networks? (variation 90)
