

# University Exams Previous Year Practice 2020 (2020)

Subject: General | Topic: Computer Networks

1. When working with Computer Networks, why would a developer use routing? (variation 96)
2. Which option is a correct use case for UDP in Computer Networks?
3. Which statement best describes HTTP in Computer Networks? (variation 95)
4. When working with Computer Networks, why would a developer use subnets?
5. Which statement best describes HTTP in Computer Networks?
6. When working with Computer Networks, why would a developer use subnets? (variation 351)
7. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
8. Which option is a correct use case for UDP in Computer Networks? (variation 83)
9. When working with Computer Networks, why would a developer use routing? (variation 86)
10. When working with Computer Networks, why would a developer use subnets? (variation 91)
11. Which statement best describes HTTP in Computer Networks? (variation 355)
12. What is the most accurate beginner-level explanation of TCP? (variation 72)
13. What is the most accurate beginner-level explanation of switches? (variation 107)
14. When working with Computer Networks, why would a developer use routing? (variation 106)
15. What is the most accurate beginner-level explanation of TCP? (variation 82)
16. Which option is a correct use case for UDP in Computer Networks? (variation 73)
17. When working with Computer Networks, why would a developer use subnets? (variation 81)

18. Which statement best describes IP addresses in Computer Networks? (variation 100)
19. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
20. Which statement best describes HTTP in Computer Networks? (variation 105)
21. What is the most accurate beginner-level explanation of TCP? (variation 92)
22. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
23. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
24. What is the most accurate beginner-level explanation of TCP? (variation 352)
25. What is the most accurate beginner-level explanation of switches? (variation 97)
26. Which statement best describes IP addresses in Computer Networks? (variation 90)
27. Which statement best describes IP addresses in Computer Networks? (variation 350)
28. What is the most accurate beginner-level explanation of TCP? (variation 102)
29. Which option is a correct use case for latency in Computer Networks? (variation 98)
30. What is the most accurate beginner-level explanation of switches?
31. What is the most accurate beginner-level explanation of switches? (variation 87)
32. When working with Computer Networks, why would a developer use subnets? (variation 101)
33. When working with Computer Networks, why would a developer use routing? (variation 356)
34. When working with Computer Networks, why would a developer use subnets? (variation 71)
35. Which option is a correct use case for UDP in Computer Networks? (variation 353)
36. Which statement best describes IP addresses in Computer Networks? (variation 80)

37. A student says 'DNS' is not relevant to real projects. What is the best correction?
38. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
39. When working with Computer Networks, why would a developer use routing? (variation 76)
40. What is the most accurate beginner-level explanation of switches? (variation 77)
41. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
42. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
43. Which option is a correct use case for latency in Computer Networks?
44. Which option is a correct use case for latency in Computer Networks? (variation 78)
45. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
46. Which option is a correct use case for latency in Computer Networks? (variation 88)
47. When working with Computer Networks, why would a developer use routing?
48. Which option is a correct use case for UDP in Computer Networks? (variation 103)
49. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
50. Which option is a correct use case for latency in Computer Networks? (variation 108)
51. Which statement best describes HTTP in Computer Networks? (variation 75)
52. What is the most accurate beginner-level explanation of TCP?
53. Which statement best describes IP addresses in Computer Networks?
54. Which statement best describes HTTP in Computer Networks? (variation 85)
55. Which statement best describes IP addresses in Computer Networks? (variation 70)

56. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)

57. A student says 'ports' is not relevant to real projects. What is the best correction?

58. Which option is a correct use case for latency in Computer Networks? (variation 358)

59. Which option is a correct use case for UDP in Computer Networks? (variation 93)

60. What is the most accurate beginner-level explanation of switches? (variation 357)
