

University Exams Previous Year Practice 2021 (2021)

Subject: General | Topic: Computer Networks

1. What is the most accurate beginner-level explanation of TCP? (variation 82)
2. Which statement best describes HTTP in Computer Networks? (variation 105)
3. When working with Computer Networks, why would a developer use routing?
4. What is the most accurate beginner-level explanation of TCP? (variation 352)
5. When working with Computer Networks, why would a developer use routing? (variation 106)
6. Which statement best describes IP addresses in Computer Networks?
7. What is the most accurate beginner-level explanation of TCP? (variation 92)
8. When working with Computer Networks, why would a developer use routing? (variation 356)
9. When working with Computer Networks, why would a developer use subnets? (variation 351)
10. When working with Computer Networks, why would a developer use subnets? (variation 71)
11. Which statement best describes IP addresses in Computer Networks? (variation 90)
12. When working with Computer Networks, why would a developer use subnets? (variation 91)
13. Which option is a correct use case for UDP in Computer Networks? (variation 103)
14. A student says 'ports' is not relevant to real projects. What is the best correction?
15. When working with Computer Networks, why would a developer use routing? (variation 76)
16. Which statement best describes HTTP in Computer Networks? (variation 355)
17. When working with Computer Networks, why would a developer use routing? (variation 86)

18. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
19. Which statement best describes IP addresses in Computer Networks? (variation 350)
20. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)
21. What is the most accurate beginner-level explanation of switches? (variation 87)
22. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
23. What is the most accurate beginner-level explanation of TCP?
24. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
25. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
26. Which option is a correct use case for UDP in Computer Networks? (variation 353)
27. What is the most accurate beginner-level explanation of switches? (variation 107)
28. Which statement best describes IP addresses in Computer Networks? (variation 70)
29. Which option is a correct use case for latency in Computer Networks? (variation 98)
30. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
31. Which statement best describes IP addresses in Computer Networks? (variation 80)
32. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
33. What is the most accurate beginner-level explanation of switches? (variation 357)
34. When working with Computer Networks, why would a developer use routing? (variation 96)
35. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
36. What is the most accurate beginner-level explanation of switches?

37. Which option is a correct use case for latency in Computer Networks? (variation 358)
38. Which statement best describes HTTP in Computer Networks? (variation 75)
39. What is the most accurate beginner-level explanation of TCP? (variation 72)
40. Which option is a correct use case for UDP in Computer Networks? (variation 83)
41. What is the most accurate beginner-level explanation of switches? (variation 97)
42. Which option is a correct use case for UDP in Computer Networks? (variation 93)
43. What is the most accurate beginner-level explanation of TCP? (variation 102)
44. Which option is a correct use case for UDP in Computer Networks?
45. Which option is a correct use case for latency in Computer Networks?
46. Which statement best describes HTTP in Computer Networks? (variation 85)
47. Which option is a correct use case for latency in Computer Networks? (variation 88)
48. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
49. Which option is a correct use case for latency in Computer Networks? (variation 78)
50. A student says 'DNS' is not relevant to real projects. What is the best correction?
51. What is the most accurate beginner-level explanation of switches? (variation 77)
52. Which statement best describes IP addresses in Computer Networks? (variation 100)
53. When working with Computer Networks, why would a developer use subnets?
54. Which option is a correct use case for UDP in Computer Networks? (variation 73)
55. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)

56. When working with Computer Networks, why would a developer use subnets? (variation 81)

57. Which statement best describes HTTP in Computer Networks? (variation 95)

58. When working with Computer Networks, why would a developer use subnets? (variation 101)

59. Which option is a correct use case for latency in Computer Networks? (variation 108)

60. Which statement best describes HTTP in Computer Networks?
