

University Exams Previous Year Practice 2023 (2023)

Subject: General | Topic: Computer Networks

1. When working with Computer Networks, why would a developer use subnets? (variation 91)
2. Which statement best describes HTTP in Computer Networks? (variation 75)
3. Which statement best describes HTTP in Computer Networks?
4. Which statement best describes IP addresses in Computer Networks?
5. What is the most accurate beginner-level explanation of TCP? (variation 92)
6. Which statement best describes HTTP in Computer Networks? (variation 355)
7. When working with Computer Networks, why would a developer use routing? (variation 76)
8. Which statement best describes IP addresses in Computer Networks? (variation 80)
9. Which option is a correct use case for UDP in Computer Networks?
10. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
11. What is the most accurate beginner-level explanation of switches? (variation 357)
12. A student says 'ports' is not relevant to real projects. What is the best correction?
13. Which statement best describes IP addresses in Computer Networks? (variation 90)
14. Which option is a correct use case for latency in Computer Networks? (variation 88)
15. Which option is a correct use case for UDP in Computer Networks? (variation 93)
16. When working with Computer Networks, why would a developer use subnets? (variation 81)
17. When working with Computer Networks, why would a developer use subnets? (variation 71)

18. When working with Computer Networks, why would a developer use subnets?
19. When working with Computer Networks, why would a developer use subnets? (variation 351)
20. Which option is a correct use case for latency in Computer Networks? (variation 98)
21. What is the most accurate beginner-level explanation of TCP?
22. Which statement best describes IP addresses in Computer Networks? (variation 100)
23. What is the most accurate beginner-level explanation of switches? (variation 87)
24. Which option is a correct use case for latency in Computer Networks? (variation 78)
25. Which option is a correct use case for latency in Computer Networks? (variation 358)
26. Which statement best describes HTTP in Computer Networks? (variation 95)
27. Which option is a correct use case for UDP in Computer Networks? (variation 83)
28. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
29. What is the most accurate beginner-level explanation of TCP? (variation 352)
30. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
31. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
32. Which option is a correct use case for UDP in Computer Networks? (variation 103)
33. What is the most accurate beginner-level explanation of switches? (variation 77)
34. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)
35. A student says 'DNS' is not relevant to real projects. What is the best correction?
36. What is the most accurate beginner-level explanation of switches? (variation 107)

37. When working with Computer Networks, why would a developer use routing? (variation 356)
38. What is the most accurate beginner-level explanation of TCP? (variation 72)
39. What is the most accurate beginner-level explanation of TCP? (variation 102)
40. Which statement best describes IP addresses in Computer Networks? (variation 350)
41. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
42. When working with Computer Networks, why would a developer use routing? (variation 96)
43. Which option is a correct use case for UDP in Computer Networks? (variation 353)
44. Which option is a correct use case for latency in Computer Networks? (variation 108)
45. When working with Computer Networks, why would a developer use routing?
46. When working with Computer Networks, why would a developer use routing? (variation 106)
47. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
48. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
49. What is the most accurate beginner-level explanation of switches?
50. What is the most accurate beginner-level explanation of TCP? (variation 82)
51. When working with Computer Networks, why would a developer use subnets? (variation 101)
52. Which statement best describes HTTP in Computer Networks? (variation 85)
53. Which statement best describes IP addresses in Computer Networks? (variation 70)
54. Which statement best describes HTTP in Computer Networks? (variation 105)
55. What is the most accurate beginner-level explanation of switches? (variation 97)

56. Which option is a correct use case for UDP in Computer Networks? (variation 73)

57. Which option is a correct use case for latency in Computer Networks?

58. When working with Computer Networks, why would a developer use routing? (variation 86)

59. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

60. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
