

University Exams Previous Year Practice 2026 (2026)

Subject: General | Topic: Computer Networks

1. Which option is a correct use case for UDP in Computer Networks? (variation 103)
2. Which option is a correct use case for UDP in Computer Networks?
3. Which statement best describes IP addresses in Computer Networks?
4. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 99)
5. Which statement best describes HTTP in Computer Networks? (variation 95)
6. Which statement best describes HTTP in Computer Networks? (variation 355)
7. What is the most accurate beginner-level explanation of TCP? (variation 72)
8. Which option is a correct use case for latency in Computer Networks? (variation 108)
9. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 84)
10. When working with Computer Networks, why would a developer use subnets? (variation 351)
11. Which option is a correct use case for UDP in Computer Networks? (variation 353)
12. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 359)
13. What is the most accurate beginner-level explanation of switches? (variation 77)
14. When working with Computer Networks, why would a developer use routing? (variation 106)
15. What is the most accurate beginner-level explanation of switches? (variation 107)
16. Which option is a correct use case for latency in Computer Networks? (variation 88)
17. Which statement best describes IP addresses in Computer Networks? (variation 100)

18. Which statement best describes IP addresses in Computer Networks? (variation 90)
19. What is the most accurate beginner-level explanation of TCP?
20. Which option is a correct use case for latency in Computer Networks? (variation 98)
21. Which option is a correct use case for UDP in Computer Networks? (variation 93)
22. When working with Computer Networks, why would a developer use subnets? (variation 71)
23. Which statement best describes HTTP in Computer Networks?
24. Which statement best describes HTTP in Computer Networks? (variation 105)
25. What is the most accurate beginner-level explanation of switches? (variation 87)
26. What is the most accurate beginner-level explanation of TCP? (variation 92)
27. When working with Computer Networks, why would a developer use routing? (variation 356)
28. Which statement best describes IP addresses in Computer Networks? (variation 70)
29. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 94)
30. What is the most accurate beginner-level explanation of TCP? (variation 352)
31. Which statement best describes HTTP in Computer Networks? (variation 75)
32. Which option is a correct use case for UDP in Computer Networks? (variation 83)
33. Which option is a correct use case for latency in Computer Networks? (variation 78)
34. When working with Computer Networks, why would a developer use routing? (variation 76)
35. A student says 'ports' is not relevant to real projects. What is the best correction?
36. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 109)

37. When working with Computer Networks, why would a developer use subnets? (variation 91)
38. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 354)
39. When working with Computer Networks, why would a developer use routing? (variation 96)
40. When working with Computer Networks, why would a developer use routing? (variation 86)
41. Which statement best describes IP addresses in Computer Networks? (variation 80)
42. What is the most accurate beginner-level explanation of TCP? (variation 82)
43. What is the most accurate beginner-level explanation of switches? (variation 97)
44. When working with Computer Networks, why would a developer use subnets? (variation 81)
45. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 104)
46. When working with Computer Networks, why would a developer use routing?
47. What is the most accurate beginner-level explanation of TCP? (variation 102)
48. What is the most accurate beginner-level explanation of switches? (variation 357)
49. Which statement best describes IP addresses in Computer Networks? (variation 350)
50. What is the most accurate beginner-level explanation of switches?
51. Which option is a correct use case for UDP in Computer Networks? (variation 73)
52. A student says 'DNS' is not relevant to real projects. What is the best correction? (variation 74)
53. Which statement best describes HTTP in Computer Networks? (variation 85)
54. Which option is a correct use case for latency in Computer Networks? (variation 358)
55. Which option is a correct use case for latency in Computer Networks?

56. A student says 'DNS' is not relevant to real projects. What is the best correction?

57. When working with Computer Networks, why would a developer use subnets? (variation 101)

58. When working with Computer Networks, why would a developer use subnets?

59. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 79)

60. A student says 'ports' is not relevant to real projects. What is the best correction? (variation 89)
