

CBSE Previous Year Practice 2025 (2025)

Subject: General | Topic: Operating Systems

1. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
2. Which statement best describes processes in Operating Systems? (variation 90)
3. Which statement best describes file systems in Operating Systems? (variation 85)
4. When working with Operating Systems, why would a developer use system calls? (variation 96)
5. Which statement best describes processes in Operating Systems? (variation 70)
6. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
7. Which statement best describes file systems in Operating Systems? (variation 95)
8. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
9. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
10. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
11. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
12. What is the most accurate beginner-level explanation of context switching? (variation 102)
13. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
14. Which option is a correct use case for virtual memory in Operating Systems?
15. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
16. Which statement best describes file systems in Operating Systems? (variation 75)
17. When working with Operating Systems, why would a developer use system calls? (variation 86)

18. What is the most accurate beginner-level explanation of context switching? (variation 92)
19. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
20. When working with Operating Systems, why would a developer use threads? (variation 81)
21. What is the most accurate beginner-level explanation of context switching? (variation 82)
22. A student says 'mutexes' is not relevant to real projects. What is the best correction?
23. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
24. When working with Operating Systems, why would a developer use threads? (variation 71)
25. A student says 'paging' is not relevant to real projects. What is the best correction?
26. Which statement best describes processes in Operating Systems? (variation 100)
27. What is the most accurate beginner-level explanation of context switching? (variation 72)
28. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
29. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
30. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
31. Which statement best describes processes in Operating Systems? (variation 80)
32. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)
33. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
34. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
35. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
36. Which statement best describes file systems in Operating Systems? (variation 105)

37. When working with Operating Systems, why would a developer use threads? (variation 101)
38. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
39. Which statement best describes file systems in Operating Systems? (variation 355)
40. Which statement best describes processes in Operating Systems?
41. When working with Operating Systems, why would a developer use threads? (variation 351)
42. When working with Operating Systems, why would a developer use system calls?
43. When working with Operating Systems, why would a developer use threads? (variation 91)
44. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
45. When working with Operating Systems, why would a developer use system calls? (variation 106)
46. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
47. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
48. Which statement best describes file systems in Operating Systems?
49. What is the most accurate beginner-level explanation of context switching? (variation 352)
50. When working with Operating Systems, why would a developer use threads?
51. When working with Operating Systems, why would a developer use system calls? (variation 356)
52. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
53. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
54. What is the most accurate beginner-level explanation of context switching?
55. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)

56. Which statement best describes processes in Operating Systems? (variation 350)

57. When working with Operating Systems, why would a developer use system calls? (variation 76)

58. Which option is a correct use case for scheduling in Operating Systems?

59. What is the most accurate beginner-level explanation of deadlocks? (variation 107)

60. What is the most accurate beginner-level explanation of deadlocks?
