

CBSE Previous Year Practice 2026 (2026)

Subject: General | Topic: Operating Systems

1. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 99)
2. When working with Operating Systems, why would a developer use threads?
3. Which statement best describes processes in Operating Systems?
4. Which statement best describes file systems in Operating Systems? (variation 75)
5. When working with Operating Systems, why would a developer use threads? (variation 71)
6. When working with Operating Systems, why would a developer use system calls?
7. What is the most accurate beginner-level explanation of deadlocks? (variation 87)
8. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 359)
9. What is the most accurate beginner-level explanation of deadlocks? (variation 107)
10. Which option is a correct use case for scheduling in Operating Systems? (variation 98)
11. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 79)
12. Which option is a correct use case for scheduling in Operating Systems? (variation 78)
13. Which statement best describes file systems in Operating Systems? (variation 95)
14. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 109)
15. When working with Operating Systems, why would a developer use threads? (variation 101)
16. Which statement best describes processes in Operating Systems? (variation 80)
17. When working with Operating Systems, why would a developer use threads? (variation 81)

18. What is the most accurate beginner-level explanation of context switching?
19. Which statement best describes processes in Operating Systems? (variation 350)
20. What is the most accurate beginner-level explanation of context switching? (variation 102)
21. When working with Operating Systems, why would a developer use threads? (variation 91)
22. What is the most accurate beginner-level explanation of deadlocks? (variation 357)
23. When working with Operating Systems, why would a developer use system calls? (variation 356)
24. When working with Operating Systems, why would a developer use threads? (variation 351)
25. When working with Operating Systems, why would a developer use system calls? (variation 86)
26. Which option is a correct use case for scheduling in Operating Systems? (variation 88)
27. What is the most accurate beginner-level explanation of deadlocks?
28. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 94)
29. What is the most accurate beginner-level explanation of context switching? (variation 92)
30. What is the most accurate beginner-level explanation of deadlocks? (variation 77)
31. Which option is a correct use case for scheduling in Operating Systems? (variation 108)
32. When working with Operating Systems, why would a developer use system calls? (variation 76)
33. Which option is a correct use case for virtual memory in Operating Systems? (variation 353)
34. Which option is a correct use case for scheduling in Operating Systems? (variation 358)
35. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 84)
36. Which option is a correct use case for virtual memory in Operating Systems? (variation 83)

37. Which statement best describes file systems in Operating Systems? (variation 85)
38. Which option is a correct use case for scheduling in Operating Systems?
39. Which option is a correct use case for virtual memory in Operating Systems? (variation 93)
40. Which statement best describes file systems in Operating Systems? (variation 105)
41. A student says 'mutexes' is not relevant to real projects. What is the best correction?
42. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 74)
43. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 354)
44. Which option is a correct use case for virtual memory in Operating Systems?
45. Which statement best describes processes in Operating Systems? (variation 90)
46. Which statement best describes processes in Operating Systems? (variation 70)
47. When working with Operating Systems, why would a developer use system calls? (variation 106)
48. Which option is a correct use case for virtual memory in Operating Systems? (variation 73)
49. What is the most accurate beginner-level explanation of context switching? (variation 352)
50. What is the most accurate beginner-level explanation of context switching? (variation 82)
51. A student says 'paging' is not relevant to real projects. What is the best correction?
52. Which statement best describes processes in Operating Systems? (variation 100)
53. A student says 'paging' is not relevant to real projects. What is the best correction? (variation 104)
54. What is the most accurate beginner-level explanation of context switching? (variation 72)
55. Which statement best describes file systems in Operating Systems? (variation 355)

56. What is the most accurate beginner-level explanation of deadlocks? (variation 97)
57. When working with Operating Systems, why would a developer use system calls? (variation 96)
58. A student says 'mutexes' is not relevant to real projects. What is the best correction? (variation 89)
59. Which option is a correct use case for virtual memory in Operating Systems? (variation 103)
60. Which statement best describes file systems in Operating Systems?
